SKINNY KRIBBLES

Around
And
About
Town

With
C. F.
(Skinny)
SKIRVIN

If I ever take another vacation I won't come back. It takes too much time to explain where you have been and what you were doing. And that isn't the worst of it. Your friends look at you when you are turning in your report with such an incredulous attitude that it's embarrassing.

Doc. Earel, Doc. Olewiler and "Doc." Brinkerhoff are planning on a European trip, which will include those points made historical during the World War, and some points which were historical before the war. Earel and Olewiler will take along the materia medica information just in case Brinkerhoff gets sick, and "Brink" may take along the spirits fragment in self defense. When the snakes left Ireland they had to go some place, didn't they?

And then there was the fellow who didn't have anything to do so he got six "favor" calls, all in one afternoon. Then he went to work at his own job.

George Jeffrey writes to Bill McKimsey that he and Mrs. Jeffrey got out of Shanghai just before the Japanese got in, which only goes to prove that the prophetic Jeffrey luck is still following him, for which we are all glad. I can't imagine a place I would rather be out of than the place where a bunch of aviators are overhead dropping bombs in, or on. Accounts of those visits indicate that the peaceful citizens are the ones who suffered. It's a poor place to carry an olive branch. It's a nice gesture but darned poor protection. So George, you better come back to the orange groves.

Bill White plans a swordfishing trip and generously requests my company. When I suggest old Danacles as a substitute, he having had more sword experience than I, Bill shifts from sword to barracuda, so I am still hooked for the invitation.

Proposition submitted by friend who has a boat he wants to sell for all it is worth, and I can have what I get over that amount. No provision made for expense incurred while making the sale. It is such a fair proposition that I'm going to let it alone.

I have been favored with a private showing of some camera pictures. I knew one of the parties. The other was an entire stranger to me. And there wasn't anything wrong with the pictures unless you wanted to think there was. The old story—evil to him who evil thinketh.

A service club president imposed a fine of 10 cents each on Chester McDonald and Guy Gilbert for becoming guest columnists, and some discriminating member thought the fine was excessive. I have an entirely different opinion, and herewith express my appreciation not only to McDonald and Gilbert, but wish to include Abbey and Curry and Bacon, and last but not least—the hopeful offspring, C. J. Skirvin.

And now we are going to have an "eat more nuts week," which I am in favor of, if the nuts are almonds. I have a selfish interest.

Freddie Carson, our trailer-tourist, sends to his friend, George Platt, a card from Mohawk, Ariz., in which he says owing to the heat he is taking the rest cure. Over the San Diego mountains Freddie employed all the power at his command, using both motors. At Yuma the thermometer, worn and weary with a heavy day's work, stopped at 117. Which recalls the story I once told about Phoenix heat. He said the only difference between Phoenix and hell was a screen door. Freddie made the San Diego and Yuma newspapers, which is getting Santa Ana on the publicity map.

And then there was the fellow who spent his vacation with the dentist. But he had waited two years, carrying the impending fear and at the same time building up (Continued on Page 2, Column 5)

County Pay Plan Stirs Union Threat

Workers Protest Board's Schedule On Wages Unfair

Threats of serious trouble with county employees hung over the heads of supervisors this afternoon, as they gathered to consider their salary "adjustments" which have pleased a very few and disgusted hundreds of workers. A projected march on the board room was postponed today, but little knots of employees gathered in corners and discussed organization plans which foretold a lot of trouble.

Salary adjustments, supposedly considered since last February, had been intended as a partial restoration of 15 per cent cuts made during the depression. As it stood early this afternoon, there was little net increase in the salary budget, and glaring discrepancies in pay for various sorts of work.

Supervisor N. E. West denied the wage scale is unfair. He said no one being paid \$100 or thereabouts would be cut. He also announced the salary budget would be boosted 4 or 5 per cent.

TRY AND GET IT
"Experience" doesn't mean a thing," was one of the remarks dropping from the mouth of Supervisor John Mitchell as a 10-year veteran in one office, doing highly technical work for which it took her six years to become accustomed, was denied a raise.

Whether it is efficiency or not, the board was scheduled to meet this afternoon, possibly to enact the ordinance—which has not been prepared yet because supervisors have not given their schedule to the district attorney's office.

IRVINE MEN ON STRIKE
Fifteen employees of the Irvine company warehouse were on strike today after officials of the Teamsters Warehouse local No. 692 said they had been refused an appointment yesterday to negotiate contracts.

The strike was ordered at 7 a. m. today, and picket lines were established shortly afterward. Harold Watterburg of Wilmington, president of the local, and C. O. Werts, business agent, said Otto Knoche, warehouse manager at the Irvine company, had refused to negotiate with them.

Union officials have been attempting to contact W. B. Hellis, Irvine company superintendent, all morning, according to T. H. Jones, business representative for the teamsters.

The union has never had a contract with the Irvine company, it was learned.

THREE DIE IN BANDIT FIGHT
SPRINGFIELD, Ohio. (AP)—Two officers and a bandit were killed, and a third officer was wounded, and one bandit was captured in a gun battle today near Medway, 15 miles southwest of here.

The shooting followed the \$1297 payroll robbery of a Springfield cafe proprietor, who was abducted from a city street about noon. The other gunmen escaped.

SOME GO UP, OTHERS CUT IN PAY MELEE

Office Jobs Slashed From \$120 to \$90

Raises up to \$400 a year for department heads, and cuts in some cases from \$120 down to \$90 a month for office workers, were included in the salary "adjustments" to be considered this afternoon by county supervisors.

Auditor and district attorney are down for raises but can't get them for four years. The Journal learned, because their pay is fixed by state law.

Sheriff and coroner are supposed to lose their fees and get salaries of \$450 and \$200 a month, respectively—which can't be done until next term, under the law. Supervisors may or may not observe the technicalities there, and may be sued if the officials are sufficiently worked up about it all.

STENOGRAPHERS OUT
Immediate raises will go to stenographers now getting \$75 a month. They will get \$90, and other stenographers now getting \$110 or more will be chopped to the \$90 level. Other medium-salaried employees will be cut, and some raised.

Small raises—much less than the 15 per cent they lost three years ago—will be given chief deputies and court clerks.

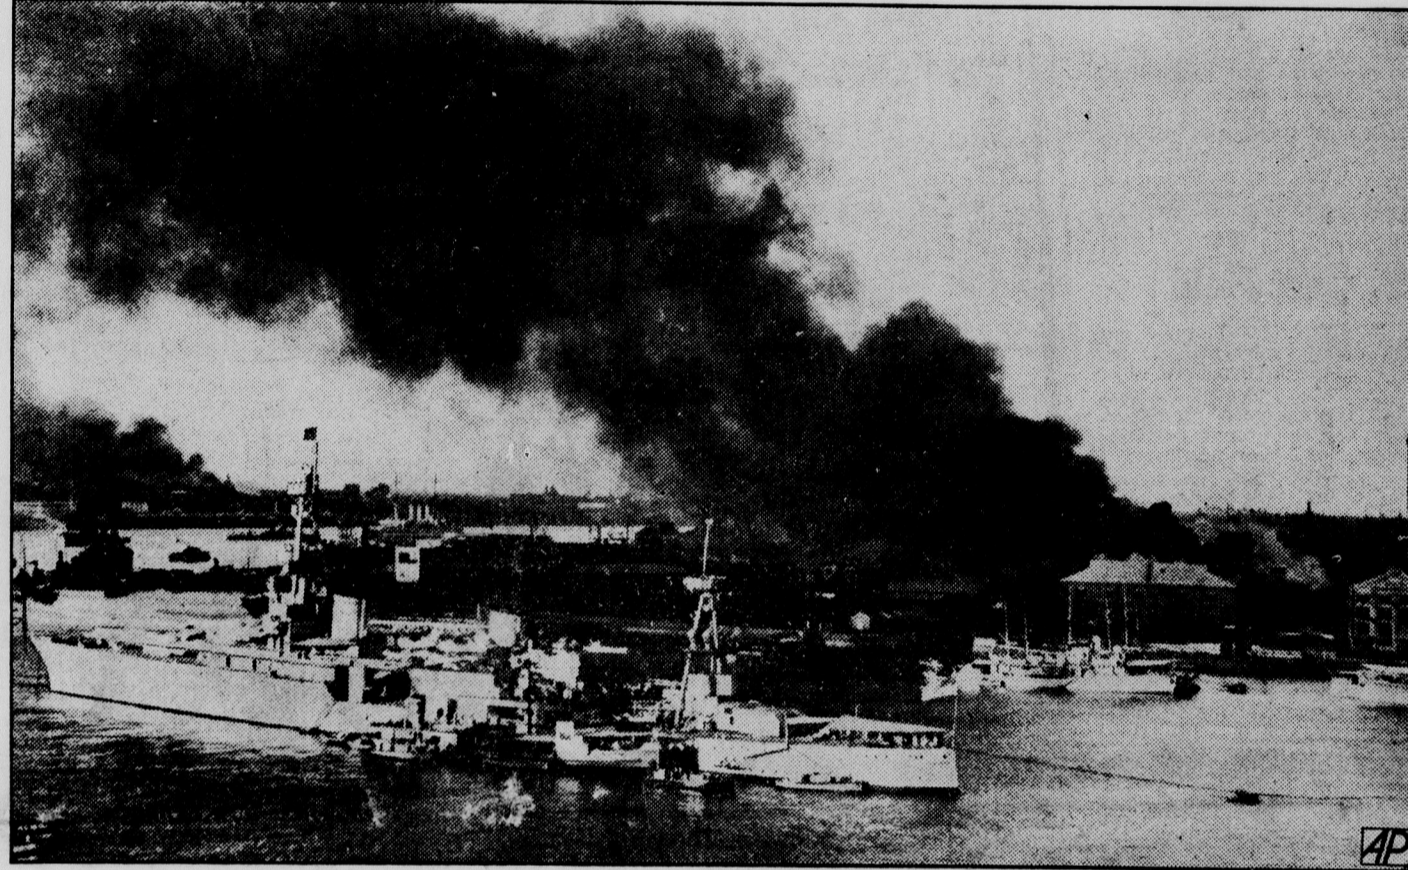

FRISCO STRIKE CLIMAX NEARS
SAN FRANCISCO. (AP)—Tension grew along the cargo-piled San Francisco waterfront today as the newest Pacific Coast clash between A. F. of L. and C. I. O. unions headed toward a climax.

There were indications of a conciliatory attitude on the part of C. I. O. forces, but A. F. of L. leaders said the current dispute was the start of a fight to the finish between the A. F. of L. and C. I. O. forms of organization on the coast.

Cargo started piling up three days ago when A. F. of L. teamsters laid up 400 trucks and picketed the waterfront to see that only mail, perishables and goods already in transit were forwarded. This action, teamster officials said, was to force a showdown with the C. I. O. over the right to organize inland warehousemen.

GOSHEN, N. Y. (AP)—A maid refused to see callers. Police at the gates kept out visitors, telephone calls brought only an anonymous voice to say "nobody home." And the fashionable Tuxedo Park colony gasped in amazement. Chief fighting point in the servants' claim to all the Foster wealth, instead of the \$35,000 bequeathed to each in a will filed Saturday, was another will, purportedly by Mrs. Foster's own handwriting,

U. S. Battleship Again in Peril

SUB ATTACKS DRAW MORE BATTLESHIPS

England, France Rush Aid for Shipping

LONDON. (AP)—Four lithe destroyers of his majesty's home fleet furrowed a swift path toward the Western Mediterranean today to help track down guerrilla submarines that have terrorized international shipping with torpedo attacks.

The admiralty announced the Fury and Forester, sailing from Portsmouth, and the Fortitude and Firedrake from Chatham, would join five other destroyers in a heavy concentration off Spain's east coast.

These trim warcraft will blanket a wide area of the Mediterranean about the spots where only two days ago the British destroyer Havock and the British tanker Woodford were torpedo targets. The Havock escaped; the Woodford was sunk.

The four destroyers comprise the 11th division of the sixth home fleet flotilla. The 12th division, which is the remainder of the sixth flotilla, was already on search duty off the Spanish coast—the flotilla leader Keith and destroyers Fearless, Foxhound, Fame and Foresight.

FRANCE AID

SEEK AID FOR FLYER
CHAMPAIGN, Ill. (AP)—The city council urged Secretary Cordell Hull today to make "every effort" to gain the release of Harold E. Dahl, 28-year-old Champaign aviator, who was reported facing execution at the hands of Spanish rebels.

Elmer Wehn, La Habra WPA crossing guard, stood freed today of charges he committed a sex crime against an 11-year-old schoolgirl.

A superior court jury yesterday returned a not guilty verdict. Wehn was arrested on the story told by the girl, who later admitted on the witness stand that the crossing guard did not attempt to attack her.

Crossing Guard Freed in Sex Case

Lying at anchor before flaming Pootung, the U. S. S. Augusta, flagship of the Asiatic fleet, again was sprinkled with shrapnel which splattered the water in renewed fighting around Shanghai today. American vessels anchored between Pootung and Japanese warships were placed in great danger today with announcement that the Nippon fighters would fire over the ships in an effort to wipe out Chinese defenders.

—FLASHES—

Chinese Get Good View of War

SHANGHAI—Chinese civilians, swarming the city's roofs, cheered delightedly today whenever the Chinese batteries scored a direct hit on Japanese warships or troop positions. Perhaps never in history has any public been afforded such a magnificent view of a full fledged battle as that from Shanghai's roof-tops, only a stone's throw from the theater of war.

Japanese Officer Kills Self

TOKYO.—The first case of Har Kiri during the Sino-Japanese hostilities was reported today. At the battle of Loctien, northwest of Shanghai, Sub-Officer Taro Watanabe was wounded and carried to the rear. When he was told his unit was annihilated, he escaped his nurse and committed ritualistic suicide under a nearby tree.

Darkroom Suffers 'Over-Exposure'

The photography darkroom in Leo Tiede's garage at 618 South Main street suffered an "over-exposure" late yesterday, and today the whole thing was a "negative."

An overheated electric light globe ignited some photographic supplies and before firemen could extinguish the blaze \$150 worth of equipment had been ruined, in addition to a \$100 property loss to the building.

Walkashow Beats Law's Edict

The Seal Beach "walkashow" went on today, with Sheriff Logan Jackson and District Attorney W. F. Menton restrained by a court order from closing the show under a state "marathon dance" law.

Superior Judge H. G. Ames issued the restraining order yesterday, when Promoter Hal Ross applied for an injunction. Ross maintains the show does not violate the law.

Elmer Wehn, La Habra WPA crossing guard, stood freed today of charges he committed a sex crime against an 11-year-old schoolgirl.

A superior court jury yesterday returned a not guilty verdict. Wehn was arrested on the story told by the girl, who later admitted on the witness stand that the crossing guard did not attempt to attack her.

FULLER SETS NEW BENDIX RECORD

Flies to Cleveland In Less Than 8 Hours

CLEVELAND. (AP)—Frank Fuller, second entrant in the Bendix trans-continental race to arrive, streaked over Cleveland airport at 2:50 p. m. (E. S. T.) today for an elapsed time of 7 hours and 55 minutes from Burbank, Calif., apparently a new record for the event.

The previous record was 8 hours, 19 minutes and 45 seconds set by Capt. James H. Haizlip, in 1932.

Fuller, flying a stripped-down Seversky pursuit ship powered with a twin-row wasp motor, came down over the field at an altitude of about 1000 feet and started off eastward for Bendix, N. J., in the wake of Jacqueline Cochran, the only woman entrant in the grind.

In elapsed time, Miss Cochran, who tarried momentarily for fuel and took off for Bendix at 1:54 p. m., was far behind the San Francisco sportsman, who had maintained a consistent speed for the 2042 miles in excess of 258 miles an hour.

JEWEL ROBBERY RING SOUGHT

Capture of Larie Stewart, allegedly in the act of scraping jewelry from the broken window of a Santa Ana store, had stirred up a hornet's nest of police activity today throughout the state. On the heels of his arraignment and asserted confession of the Santa Ana job, Long Beach police began a drive to round up a ring of asserted aides.

Stewart, who has many aliases, was arraigned today under the name of Neal Sargent in Santa Ana justice court. Bail was set at \$20,000, which he failed to make.

SAFETY FOR REFUGEES IS DEMANDED

U. S. Ships Endangered By New Japan Attack

SHANGHAI. (Saturday). (AP)—A new maelstrom of shellfire and shrapnel engulfed International Shanghai early today, leading French authorities to give blunt notice that they expected both sides to curb hostilities during evacuation of 650 French and American refugees.

While Japanese planes droned over the city dropping bombs on Chinese Pootung across the Whangpoo, French consular and military officials prepared to safeguard the refugees down the river to the French liner Sphinx.

The Sphinx is scheduled to sail at 8 a. m. Many Americans have booked passage.

The Japanese bombardment in the early morning darkness was Nippon's angry answer to a Chinese counter offensive which stalled Japan's long promised "big push."

SAVE 100 AMERICANS
Chinese guns roared along the Whangpoo, raking Japanese warships and turning Shanghai's waterfront into a shell-shattered battlefield.

The river seemed almost impassable for a tender, but French authorities told both Chinese and Japanese high commands that they expected hostilities to be "withheld" during the voyage.

Yesterday the United States supply ship Cold Star ran the Whangpoo gauntlet to evacuate about 100 wives and children of American marines.

Last night's Chinese counter-attack forced a revision of Japanese strategy.

Chinese big guns and machine gun nests sprayed shells and bullets on Japanese warships and troop transports. Eight Japanese transports fled downstream.

BARRACKS HIT
Shells crashed into the international settlement and the French concession. Shrapnel burst over the foreign communities.

One projectile struck the roof of the second United States marine battalion barracks, but failed to explode. Marine officers said it was a one-pound anti-aircraft projectile.

A heavy artillery shell burst at the junction of Peking road and Shanghai's bund in the international settlement. Shrapnel burst about the U. S. cruiser Augusta.

Even greater danger loomed for the Augusta and other foreign warships. A Japanese naval spokesman announced Japanese shells would fire across the foreign naval contingent lying in the Whangpoo in punitive Augustas.

CHINESE GOOD SHOTS
Chinese gunners showed surprising improvement in marksmanship. They scored three direct hits on the Japanese consulate, seriously wounding three Japanese consular police and one Japanese newspaperman.

Many Japanese bluejackets on shore and on shipboard were killed or wounded.

The Chinese artillery and machine gun fire rained on Japanese transport, supply ships and the Japanese Hongkew district from emplacements in Pootung, across

(Continued on Page 2, Col. 1)

I'll Tell You

By BOB BURNS

I don't like to talk about myself but some columnist came out with the statement that I had bought a new car that was so long I had to build an addition onto the garage, and I don't think it's any more than right that I use my space here to deny them charges. I did buy a new car but it's one of the shortest cars made.

In fact I had'ta get a short one so my wife would have room enough to run the washin' machine in the garage. I just pretty near had to get a new car because the old one got in such bad shape. I live back off the main road quite a ways and the road going up to my house ain't paved and it's that adobe soil that gets awfully slippery when it gets wet and the radiator in my old car got to leakin' so bad I been driving with chains all summer.

(Copyright, 1937)

DRILLING IN STATE SHOWS INCREASE

New Wells Double 1936 Figure, Report

SAN FRANCISCO. (AP)—Drilling of new oil wells in California holds to a rate about 50 per cent faster than a year ago. It took only the first eight months of this year to match the total new drilling of all of 1936.

R. D. Bush, state oil and gas supervisor, reported he received 34 drilling notices last week, bringing the 1937 total to 1082—just one more than the total for the full year 1936.

Continuance of the average rate thus far this year through December would establish a new high record for the California industry, exceeding the rate of the early '20s.

CHINESE GAIN IN SHANGHAI

(Continued From Page 1)

the Whangpoo from International Shanghai.

American and foreign vessels were anchored between Japanese warships and Pootung, preventing Japanese from returning fire and inspiring the Japanese announcement that "hereafter we will use our full power regardless of the presence of foreign warcraft."

KANG TEH MAY BE MANCHOUKUO'S EMPEROR

PEIPING. (AP)—There were growing indications here today that the government of Manchoukuo will be transferred to this ancient capital of China and the Emperor Kang Teh be placed once again on the dragon throne from which he was driven as a spy.

Reliable but unofficial Japanese sources reported the arrival of two of Japan's highest ranking army officers, bearing with them Tokyo's finished plans for the establishment of a permanent Japanese-sponsored political structure in conquered North China, was expected momentarily.

TYPHOON ROARS TOWARD SHANGHAI

HONGKONG. (AP)—Hongkong's devastating typhoon roared northward out of the British colony tonight, leaving the harbor strewn with death and wreckage.

The storm was expected strike the Chinese coast again not far south of war-torn Shanghai.

The death toll appeared likely to exceed first police estimates. Three hundred bodies were recovered along one section of the waterfront where a six-foot tidal wave swept inland.

Many fishing fleets were destroyed. Sweeping inland for a quarter of a mile, the tidal wave overwhelmed the village of Tai-po. An estimated 300 were killed in outlying towns.

'Iron Lung' Girl Succumbs

DENVER. (AP)—An adequate supply of mechanical devices to combat infantile paralysis brought today a measure of confidence to doctors—and parents—of this region despite the victory claimed yesterday by the disease.

Two extra mechanical lungs were available to prevent a recurrence of the appalling situation which developed Monday when 2½-year-old Shirley Krause and 15-year-old Maybelle Outcalt both required treatment in the only mechanical breather in the Rocky Mountain area.

The Outcalt girl died yesterday.

Mattern Returns To Los Angeles

LOS ANGELES. (AP)—Jimmy Mattern, whose first search for the missing Russian aviators was unsuccessful, was prepared today to return to Alaska if necessary.

Mattern flew non-stop from Juneau, Alaska yesterday, making the 2100-mile flight in 10 hours and 50 minutes. The trip was uneventful.

The "round-the-world flier" said he would have his twin-motored ship gone over and be ready to return to his search if his help should be needed.

MWD Picket Held For Assault

RIVERSIDE. (AP)—A union picket, Sheldon W. Brown, was being held today for superior court action on an assault charge in connection with the beating of a non-striker.

T. S. Furlong, employe on the San Jacinto tunnel sector of the Colorado river aqueduct, identified Brown as one of the pickets whom he said attacked and beat him.

Longshoreman Vote Favors CIO

LOS ANGELES. (AP)—By a narrow margin, more than 1400 members of the International Longshoremen's association were recorded today as requesting a charter from the Committee for Industrial Organization.

The vote followed efforts of a faction to have the I. L. A. repudiate its recent withdrawal from the American Federation of Labor.

BARRYMORE SHIP SOLD

LOS ANGELES. (AP)—In a flurry of spirited bidding, John Barrymore's "honeymoon yacht," the Infanta, was knocked down in federal bankruptcy court today to E. P. Lawson, millionaire New York manufacturer, for \$77,500.

Stores and Public Offices Are to Close on Monday

Business houses, public offices and banks in Santa Ana will be closed Monday in observance of Labor day.

No window or delivery service of mails will be available Monday, post office officials announced. The city hall as well as the court house will be closed.

Phil M. Brown, secretary of the Business Men's association, announced all stores will be closed. The Santa Ana public library will be open, however, from 2 p. m. until 9 p. m., according to Miss Ethel Walker, head librarian.

DUMMY CAUSES ROMANCE RIFT

HOLLYWOOD. (AP)—Judy Canova, hillbilly singer, today broke her engagement to Ventriologist Edgar Bergen, blaming Dummy Charlie McCarthy for the cooling of a three-year romance.

She said she didn't like "playing second fiddle" to the wooden-headed little fellow that Bergen made into a radio favorite.

"It's an obsession with Eddie," she added. "He thinks and talks of nothing else."

Bergen and the dark-haired Pensacola, Fla., comedienne, first met in New York. Since both came to Hollywood, he has visited her on film sets, taken her to premieres and otherwise been her constant escort.

"Eddie can stuff his old dummy in his old trunk and get in with him," she announced, apparently on the verge of tears.

Sex-Killing Suspect Held

BOSTON. (AP)—Joseph Pimental, 24, described by Police Commissioner Joseph F. Timilty as a sex-crazed killer, pleaded innocent today to a charge of murder in the first degree in connection with the slaying of 5-year-old Chester Harris of Cambridge.

Pimental was held without bail for a hearing Sept. 16.

Cal Tech Reports Severe Quake

PASADENA. (AP)—An earthquake shock of "considerable proportions" at 10:58:25 a. m. today was reported by the Carnegie seismological laboratory. The distance and direction from the station here has not yet been determined.

SHEPPARD HOME FROM CAPITAL

Congressman Harry D. Sheppard arrived home today from Washington, D. C., and set about his plan of spending part of his time in each of the three counties of the 19th congressional district.

He has taken up temporary residence at the California hotel in San Bernardino, according to word received today by Herbert F. Kenny, who is in charge of Sheppard's speaking engagements while he is in the district. Citizens of his home town, Yucaipa, will give him a home-coming dinner next Thursday.

The congressman will be one of the featured speakers at the first convention of the General Welfare Legion of the 19th district in Fairmont park, Riverside, on Saturday, Sept. 11.

Sheppard's first appearance in Orange county will be on Sept. 17, when he will attend a meeting of the California Assembly of Democrats in La Habra.

Sheppard will move his office to Santa Ana and take up temporary residence at the Santa Ana hotel on Sept. 26, and will stay here for 18 days.

The congressman will make appearances at many events in Orange county while he is here, Kenny stated.

Thief Gets \$53 In Mesa Home

Fifty-three dollars in cash and an \$8 gold-plated bracelet were stolen from the home of H. W. Wright, Costa Mesa cafe operator, 1784 Newport boulevard, between 7 and 11 p. m. yesterday.

The burglar entered the house by means of a pass key and left through the kitchen door, a sheriff's report said. Since the money was taken from an unusual hiding place, officers believed the burglar may have been committed by some one familiar with the house.

15-Cent Killer Goes to Death

FLORENCE, Ariz. (AP)—David Benjamin Knight, 32, Oklahoma ranch worker, whom the state charged killed his friend, J. C. Kalb, for 15 cents and an automobile, went to his death calmly today in Arizona's lethal gas chamber.

He contended until the last the slaying was in self-defense.

Warden A. J. Barnes said the prisoner was pronounced dead at 4:03 a. m., seven minutes 40 seconds after the fatal fume-forming pellets were released in a small pan beneath a chair in which he had been strapped.

Nab Mattson Kidnap Suspect

LOS ANGELES. (AP)—Through the alertness of a police officer's son, an ex-convict was under arrest and questioned today about the abduction and slaying of 10-year-old Charles Mattson of Tacoma, Wash.

The prisoner is John Penny, 52, who said he was paroled from San Quentin penitentiary in 1933 after serving a term for attacking a girl.

Penny was trapped after Lowell Lyon, jr., 13, told his father that the man approached him with offers of refreshments and a show. Young Lyon made an appointment to meet Penny, who was seized at the meeting place by police and federal operatives.

ADMITS KILLING

JACKSON, Miss. (AP)—Sheriff E. T. Harvey said today Gordon Newman, 45, charged with killing his wife and her dentist, confessed that he also killed a negro yesterday.

Newman, officers said, beat his 38-year-old wife to death at their Gillsburg, Miss., farm home and then drove 16 miles to Kentwood, La., where he shot Dr. A. D. Root, 45, in his office.

SKINNY SKRIBBLES

(Continued From Page 1)

more work for the dentist. Old procrastination again, just stealing a few more cavities

The many former Iowans in Southern California will regret to learn of the death of James C. Davis, of Des Moines, at his Iowa home. He was director general of the United States Railroad administration after the World War. Davis was general solicitor for the Northwestern railroad when appointed federal counsel. In 1920 President Harding appointed him to the task of dismantling the railroad administration and assisting in the work of returning the railroads to their private owners. This work he completed under the Coolidge administration, and for his thoroughness and understanding viewpoint of the railroad problems Coolidge expressed in a personal letter his appreciation.

The Royal Exchange of London was established in 1556.

FRUIT BUYERS HEAR FATE ON SEPT. 15

Violation of Prorate
Law Is Charged

Two long Beach fruit buyers will appear before Judge Charles Kuchel, Anaheim justice of the peace, on Sept. 15 for pronouncement of judgment in a case involving violation of citrus prorate laws.

Sentence on the two defendants, S. Scharlin and H. W. Scholl, will be passed on Sept. 15 following granting of a request by the judge for extension of time.

PRORATE LAWS
The two men, both independent fruit buyers who have been operating in Anaheim and other northern Orange county districts for several years, were found guilty of violating prorate restrictions, by Judge Kuchel.

Their alleged offense took place last March 18, according to a complaint signed by Paul G. Robertson, state inspector. Miss Jeanette Scharlin, sister of S. Scharlin, acted as their attorney. Both of them have been postponed several times, and now are set to be heard in November.

CHARGE FROZEN FRUIT
Both of the cases involved alleged shipment of fruit frozen beyond the tolerance limit allowed by the state agricultural department. The Anaheim Citrus Fruit association and Manager John Dunn are named in one complaint. By stipulation between the district attorney and S. B. Kaufman, representing the defendants, this case has been postponed until Nov. 16. The other case, in which the Western Fruit Growers, A. J. Miller and Edward Mills are defendants, has been set ahead to Nov. 23 by a similar stipulation.

FARM BUREAU'S PROGRAM TOLD

A 1938 membership campaign embodying an organization period from now until Oct. 17 and an active campaign from Oct. 18 to Nov. 10, was approved as highlight of yesterday's monthly meeting of the Orange county Farm Bureau board of directors.

The directors have set a quota of 1500 paid members for next year, a boost of 150 over this year's Farm Bureau membership. Preliminary discussions of Farm Bureau cooperation in highway safety and of a possible future hospitalization and medical insurance program were other features of the board meeting.

Santa Ana lodge, No. 241, will hold stated meeting, 7:30 p. m., Fri., Sept. 3. Master Masons invited. Refreshments.

Mystery Girl Stowaway

Carrol Love, Master at Arms of the S. S. California, shakes his finger at a stowaway listed in the ship's records as Miss Elizabeth Schwartz, 23, of Chicago, discovered aboard on the last trip to England and brought back to New York. She said she was the former Mrs. Henry Mollison, wife of a brother of James Mollison, English aviator. She was later confined in the psychopathic ward at Bellevue hospital, N. Y.

FARM PRICES INCREASE DURING YEAR

The average of farm prices for 24 leading commodities for the year ending with June, 1937, achieved an advance over the previous year, with the exception of one single item, chickens.

In this average list, compiled by the Giannini foundation of the University of California college of agriculture, all of the items covered, with the same exception, reached their highest figure since 1930-31.

In this same comparison, the 24 commodities all told, averaged 86 per cent of the prices received for the same commodities between the years, July, 1934 to June, 1935, the "pre-depression" years, so-called. However, the average for the past year was 122, as compared to an indexed 100 for the years, July, 1910 to June, 1915, the years of relative normal post-war conditions.

Every item on the list sold higher in July of this year than in July, 1936, with the exception of butter, which dropped 2 cents a pound, chickens, cotton and lemons. The quotations on milk fat and eggs for the two July's were the same. In this comparison beef cattle rose from \$5.50 to \$7, veal from \$7.60 to \$8.50, and hogs from \$10.40 to \$11 a hundredweight. Feed shortage advanced hay by approximately \$2 a ton, while oranges took a jump from \$2.20 to \$3.35 a box.

Marine Millinery Opens Tomorrow

The Marine Millinery, featuring popular priced millinery and handbags, opens tomorrow in the building formerly occupied by the Barnard Dress shop, at 211 West Fourth street.

The new store has been entirely refurnished inside and out. New and modern fixtures are cream-white in color.

For the opening tomorrow, women who visit the shop will be given gardenias. All women in the Santa Ana trading territory were extended a cordial invitation to inspect the new shop and the big stock of new and modern merchandise.

General Manager Garrell and Mrs. Garrell, heads of the organization, will be in Santa Ana tomorrow to officiate at the opening event. Only local salespeople have been employed, it was announced.

SYRIANS CELEBRATE

LOS ANGELES, (AP)—Syrians of Southern California will hold their fifth annual Mahrajan, two day fiesta carnival, here Sunday and Monday.

Funeral Notice

KUNKEL—Funeral services for Mrs. August Kunkel, who died at her Garden Grove home Sept. 2, will be held at 2 p. m. Saturday from the Brown and Wagner Funeral home, with the Rev. Raymond Coakes, pastor of the Four Square church of Garden Grove, officiating. Interment in Westminster Memorial Park cemetery.

SOVIETS KILL 8

MOSCOW, (AP)—Eight more persons convicted of rightist enemies of the Soviet regime were shot today in Leningrad province and two others were sentenced to 10 years in prison. They were reported to have confessed attempts to hamper development of collective farming in the Krasnovodsk district.

FREE!

GARDENIA
BEAUTIFUL COBSAGE
We urge you to come in and see us tomorrow. Come in and browse around. Without obligation, we will present each lady a beautiful gardenia corsage on opening day. Absolutely free while they last.

Our Pledge

To make our new store worthy of your patronage. To never be undersold. To guarantee Los Angeles and Long Beach prices on identical merchandise and last, but not least, to always show the smartest, new fashions first.

Andrews, Guthrie Win Best-Ball; Extend High-Low

Mrs. E. H. Guthrie and Mrs. Don Andrews, 94-20-74, captured best-ball partner golf for women at the Santa Ana Country club yesterday.

Runners-up were Mrs. R. W. Weston and Mrs. Rilla Woodington with a score of 94-17-77.

Because of Labor day, Monday, this week's round in the annual high-low tournament for men may not be completed until early next week, the caddyman announced. Pairings follow:

Dick Ewert and J. E. Swanke (def. M. E. Johnson and Dr. V. A. Rosler) vs. F. E. Farnsworth and R. C. McMillan (bye).

Don Woodington and Dean Colver (bye) vs. Don Knapp and Carl Mock (d. M. B. Wellington and Forrest Neal).

W. C. Pixley and W. C. Fletcher (d. M. Yould and A. Marks) vs. J. W. Beach and Bill Fernandez (bye).

H. L. Miller and George Osterman (d. C. W. Jordan and M. Nelson) vs. Bob Fernandez and H. Williams (d. M. A. Patton and J. W. Jenkins).

W. Cubbon and M. N. Thompson (d. H. Benson and G. Spielman) vs. Don Kennedy and F. Marker (d. W. W. Foote and N. W. Miller).

L. R. Kennedy and Ed Moore (bye) vs. Fay Hochstrasser and F. Howard (d. F. C. Holmes and Ken Harbert).

Jack Robertson and J. E. Liebig (d. M. D. Howell and William Penn) vs. S. Holmes and R. M. Cooper (bye).

KILLED BY TRAIN

LOS ANGELES, (AP)—A man tentatively identified as Earl Burger, about 34, of Sunnyvale, was struck and killed by a Southern Pacific train early today. The man was walking along the right-of-way, police said.

SOVIETS KILL 8

MOSCOW, (AP)—Eight more persons convicted of rightist enemies of the Soviet regime were shot today in Leningrad province and two others were sentenced to 10 years in prison. They were reported to have confessed attempts to hamper development of collective farming in the Krasnovodsk district.

AMATEUR GOLF CHAMP LOSES

LOS ANGELES, (AP)—Championship stock of Ray Billows, Inc., Poughkeepsie, N. Y., skyrocketed along the rolling Los Angeles Country club fairways today as 16 players sought the western amateur crown left kicking around by dethroned Paul Leslie.

Leslie, the Louisiana State medical student, dropped the crown in the rough at the 20th where William Holt of Syracuse, N. Y., beat him.

Roger Kelly, Los Angeles, long-hitting national amateur medalist a week ago, fired too many birdies at the veteran Chick Evans, Chicago, eight times a western winner, for a 4 and 3 victory.

Woman Faces Trial Over Land Deal

Mrs. Jessie Boughner, Yorba Linda, yesterday was bound over to superior court from Santa Ana justice court by Judge Chris P. Pann on charges of grand theft. She is alleged to have sold her five-acre orange grove in Yorba Linda to George C. Oliver for \$15,000. Oliver is said to have paid \$8000 down on the property, and executed a trust deed for the balance.

Oliver charged the defendant with misrepresenting the property. Mrs. Boughner was released on her own recognizance.

BOOING BOXOFFICE BONANZA, RASPBERRY SOCIETY CLAIMS

TIFTON, Ga. (AP)—Contending boos are a box office boon, Tifton boaters framed a vigorous reply today to an injunction banning booing of commercial advertisements in movie programs.

On the petition of Theater Manager R. E. Martin, Superior Judge R. E. Eve issued the temporary re-

straining order against the oral outbursts of local No. 3 of the Society for the Booing of Commercial Advertisements in Motion Picture Theaters.

Also named in the suit was the Tifton Gazette which printed an advertisement wherein members

of local No. 3 appealed for public support. Damages were mentioned in Martin's petition also but Publisher John Herring (himself a non-booter) scorned any such claim and asserted that far from injuring business the booing had been a box office bonanza.

"We carried the ad Wednesday and there was a full turnout of the club Wednesday night," said Herring. "They all bought tickets too."

"Thursday night there was a bigger crowd."

"Friday night there was stand-

room only and all the policemen in town were standing in it." (The injunction was issued Friday) "I tell you . . . the patrons were mighty disappointed because there wasn't any booing Friday night."

Meanwhile in Little Rock, Ark., where the boo movement originated several weeks ago, local No. 1 of the S.B.C.A.M.P.T. rallied to lend its moral support to legally beleaguered Brothers in Boo.

Said executive secretary M. C. Blackman:

"We will give a mass, sympathy boo Thursday night."

A PUBLIC STATEMENT Issued by The Metropolitan Water District of Southern California SAN JACINTO TUNNEL STRIKE

On August 14, 1937, a C.I.O. union called a strike on the San Jacinto Tunnel of the Colorado River Aqueduct. The union is now attempting to stop all progress on that portion of the aqueduct.

The Aqueduct is a public project, being constructed by The Metropolitan Water District of Southern California, a municipal corporation and political subdivision of the State of California. The San Jacinto Tunnel is not a contract job, but is being constructed by forces directly employed by the District.

The union called the strike after a delegation from that group had appeared before the Board of Directors of the District on the afternoon of August 13, 1937, and presented demands which they specifically declared represented their minimum demands. It was stated that these demands must be granted in the form of a written contract not later than 7 P.M. of that day.

Union Demands

In making its demands, the union presented no complaints concerning wages, hours, or safety and working conditions. The proposed contract contains sixteen specific and definite demands. The following demands are quoted from the proposal:

"That the union be recognized as the sole bargaining agent for all employees except superintendents, executives, officials and others in advisory capacity."

"That in increasing forces or hiring of new employees all members of the union now laid off shall be given preference, and it is further agreed that in this the co-operation of the union shall be enlisted."

"In the event of dismissal, termination notice shall state specific reason. Where cause is challenged settlement shall be by mutual agreement."

"Disqualification for employment on medical grounds shall be accompanied by written statement of reason, on which applicant may, at his own expense, be examined by two physicians of his own choosing. Shall their findings be in contradiction to stated reason, employment shall be given."

Why Demands Cannot Be Granted
As a political subdivision of the State of California the District is specifically exempted from the operation of the National Labor Relations (Wagner) Act.

The District has no authority to enter into any agreement restricting or limiting the right of any qualified citizen to obtain employment on the Colorado River Aqueduct. The union's demands if granted would restrict this right. The District cannot and will not delegate authority over employment to any outside agency. The authority and responsibility vested in the District's public

officers may not be contracted or bargained away. The proposed demands violate these principles.

No Discrimination Against Union

In the employment of workmen the District has never discriminated against members of any union. The District has not and will not foster or oppose the joining of any lawful organization by any of its employees, nor does the District in any manner favor or discriminate against any employee or group of employees because of membership or non-membership in any union.

The District cannot and will not restrict employment to members of any single union nor place any single union in a position of domination any more than it could or would exclusively reserve all jobs for members of any certain church or of any political party.

To the extent that the union constitutes a group of District employees, the management of the District will as it always has in the past, treat with its representatives in matters relating to working conditions or terms of employment. But the District cannot and will not make any such union the sole bargaining agency for labor.

A Public Project

The Aqueduct is a public project. It is being constructed from the proceeds of a bond issue of \$220,000,000 voted by the citizens of the thirteen cities which constitute The Metropolitan Water District of Southern California. The main line of the Aqueduct is now more than three-fourths completed. Since the start of work more than 30,000 residents of the District have been given gainful employment on this job.

Work Must Proceed

San Jacinto Tunnel is a part of the Aqueduct system. Since the Union called a strike on this tunnel the District has continued to carry forward maintenance and construction work. Such is the plain duty and responsibility of the District's constituted officers. Men are being employed to fill the jobs abandoned by strikers and these men are experienced and qualified workmen who are residents of the District.

Protection of Employees and Public Property

It is the duty of the District and its officers to provide protection for persons engaged on Aqueduct work, to protect District property, and to take such lawful measures as will assure the safe passage of necessary men, materials, and supplies. To this end the District has sought and secured the co-operation of the proper municipal, county, and state authorities in the areas affected.

EMPLOYMENT NOTICE

On the day before the union called the strike there were 1190 men employed on the San Jacinto Tunnel. 206 men remained on the job. On September 2, 1937, the number of men on the job had increased to 602. Additional men will be employed or re-employed until the necessary crews have been organized to drive the main headings on a three-shift basis. Men employed to replace strikers are not hired as "strike breakers," but are residents of the District, experienced in tunnel work, and are employed for steady work, measured by the needs of the construction job.

They are not to be let out if and when any strikers desire to return to work. Any former San Jacinto Tunnel employee may return to his work, provided he had a good record while on the job and has not participated in threats or acts of violence, and provided, further, that his job has not been filled since he left the work. District officers will be solely in control of re-employment.

Registration for employment and re-employment will be taken at the District's Banning office and at the District's labor employment office at 770 South San Pedro Street, Los Angeles.

F. E. WEYMOUTH
General Manager and Chief Engineer.

INDUSTRY IN STATE SHOWS BIG GAIN

SACRAMENTO, (AP)—Sustained gains in factory employment and practically doubled exports from California were reported to Governor Merriam's council today by Director of Finance A. E. Stockburger.

Stockburger's summary of the state's current recovery period included as outstanding developments:

In July the number of wage earners employed in manufacturing plants was 14.3 greater than July of last year and "substantially above any other July total on record."

Industrial payrolls continued to increase more rapidly than the number of workers employed, with the result that average wage earnings this year are estimated at 12.1 per cent above those of a year ago.

"Value of exports from California customs districts during June was almost double that reported for the corresponding month a year ago, while imports of foreign merchandise through California ports were 70 per cent above June 1936."

In spite of unsettled conditions affecting waterborne commerce during the early part of the year, California's export trade during the first six months was 40 per cent above the first half of 1936, and import trade showed a six months gain of 18.8 per cent.

Reports on agricultural conditions, the finance director said, forecast 1937 income of California farmers at the highest level since 1929.

California's net current deficiency is substantially less than a year ago, Stockburger reported, standing at \$26,403,349 on July 31 compared with \$39,315,505 on the same date in 1936.

Men in White Replace Girls In Night Spots

SHANGHAI, (AP)—Men in white replaced spangled cabaret girls in all of Shanghai's Chinese-owned night spots today.

Every such cabaret was ordered converted into a hospital.

This followed angry threats from indignant patriots to blow up pleasure resorts which, in the midst of terrible suffering, have been going full blast each night.

The latest anti-aircraft scheme developed in defense of Great Britain was seen recently in tests of rockets that trail saw-edged wires to cut airplane wings and fowl propellers.

Big areas of sky can be blocked off by these rockets, according to the inventor, Grindell Matthews, the first man to speak by radio from a plane to the ground.

The curtain of rockets would drift slowly to earth on parachutes. Each rocket would trail streamers of milled wire, fine as thread and covered with thousands of tiny teeth. A thousand feet of the wire weighs only 10 pounds, a light load for a big rocket.

The parachutes can be released at any height desired forming a fence 1000 feet deep which would drift slowly to earth. The barrier could be formed at 32,000 feet in a space of five seconds, according to Matthews.

The rockets would be released at any height desired forming a fence 1000 feet deep which would drift slowly to earth. The barrier could be formed at 32,000 feet in a space of five seconds, according to Matthews.

School Offers Air Training

California Flyers, Inc. located at the Los Angeles Municipal airport, is training men for positions in the aircraft industry in an attempt to help fill the ever increasing demand for trained aircraft workers.

According to a summary completed last week by the Los Angeles chamber of commerce, the unfilled airplane orders of aircraft factories in Los Angeles county now totals \$64,500,000.00.

Earthquake Fault May Be Cause of Idaho Land Sinking

BUHL, Idaho, (AP)—A university geologist, trapping the restless bottom of Southern Idaho's "sinking canyon," injected today a new and ominous theory into the cause of the disturbance.

The theory, and it is nothing more than that, declared Dr. F. B. Laney, geology instructor at the University of Idaho at Moscow, is that the break is an old fault line somewhat similar to that which caused the San Francisco earthquake. The fault has slipped, he theorized, and caused the land above to sink.

For weeks, Farmer H. A. Robertson has watched some six of his fertile farm acres go plunging into the earth. Two canyons, one more than 200 feet deep, have been formed. Up above, huge cracks split the topsoil adjoining the canyon.

Laney was sent into the region by the university and the state bureau of mines. They want to know what is causing the phenomenon. Over the week-end, the geologist descended the deep and awesome canyon in search of some clue.

Camel Patrols Guard Australia's Big Fences

NEW YORK, (AP)—Camels are so useful in the arid areas of Australia that the commonwealth government keeps its own breeding and training stations for these beasts, says Albert Richard Wetjen, the explorer.

Camel patrols maintain the two greatest fences in the world—one that bars the jackrabbits from entering the great wheat belt of Western Australia, the other erected against wild dogs and rabbits along the border of New South Wales and South Australia.

As early as 1860, camels were used in the Australia interior by explorers. They were imported from India.

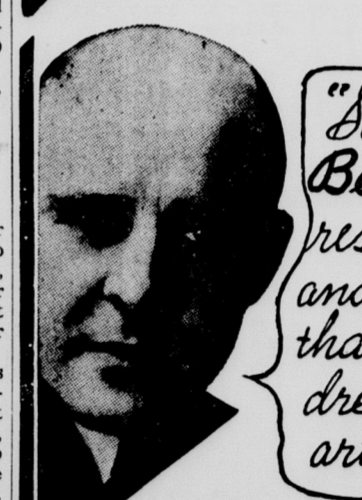

CALLANDER, Ontario, (Canadian Press)—The Dionne quintuplets were seen during August by 135,660 persons — approximately 19,000 more than came to view them in July.

Daily showings of the quintuplets will be reduced from two hours to one hour, starting Sept. 12, their doctor, Dr. A. R. Dafoe, announced today. They will be seen in their nursery playground from 9:30 a. m. to 10 a. m. and from 2:30 p. m. to 3 p. m.

ARIZONA CUT ON FREIGHT IS ATTACKED

Reduction Would Cost Local Growers Money

A group of Arizona cantaloupe growers has sought a 10 per cent reduction in its freight rates to eastern markets. And if it goes through, it's likely to cost Orange county citrus growers thousands of dollars.

This, in effect, was the paradoxical explanation given yesterday to the farm bureau's board of directors and the press for a bitter legal battle being waged in Washington by the California Farm Bureau federation.

BUREAU INTERVENES

The explanation was made in an informal discussion by R. Lowell Miller, attorney for the state farmers' organization, who visited here en route from San Diego to his office in San Francisco.

The California Farm bureau has filed a petition for intervention in a hearing before the Interstate Commerce commission in which Arizona cantaloupe growers are seeking a differential in freight rates on cantaloupes of 90 per cent of the present blanket rate which applies to all western states.

This hearing, Miller explained, follows a 1936 decision granting Arizona lettuce shippers the same 10 per cent reduction over the freight rate paid by California growers.

CITRUS NEXT

"If the Arizona cantaloupe reduction is granted," the farm bureau lawyer declared, "the next move will be to grant the same differential for all fruits and vegetables shipped from Arizona—including citrus."

"The railroads all are opposed to the differential rates," he said, "because a differential would put them on a spot—they'd either have to raise the California rates which would cause widespread discontent, or they would have to lower Arizona's rates which they cannot afford to do."

D. A. V. Leader

DAVID R. DAY

New officers were directing activities of Jack Fisher chapter, Disabled American Veterans of the World War, today following installation ceremonies held in the K. of C. hall with John Cleary, retiring commander, presiding. More than 100 attended the meeting.

David R. Day, Fullerton, assumed duties of commander when he was installed by William Conley, past national commander of the D. A. V. Other elected officers installed included Ellis W. Gaddis, Anaheim, and Claude Pullen, Corona del Mar, senior and junior commanders respectively; John Cleary, state committeeman.

Appointments announced by the new commander included C. A. Spurrer, adjutant-treasurer; Earl B. Hawks, chaplain; James C. Wylie, officer of the day; Harry D. Edwards, service officer; V. L. Brown, judge advocate; M. P. Lynch, supply officer; Harry S. Pickard, historian; and Floyd H. Mitchell and Thomas D. Daniels, color guards.

Canada leads the world in the transportation of freight by air. In the last year, commercial transport companies operating chiefly in the mining areas of the north carried 22,947,999 pounds of freight consisting largely of machinery, fuel oil and supplies.

Eleven Speeders Are Fined \$93

Eleven Santa Ana speeders were fined \$93 in Judge J. G. Mitchell's court yesterday.

They were: Richard Washington, Altadena, \$13; Jack E. Home-

wood, Laguna Beach, \$10; Oliver A. Shermer Jr., Santa Ana, \$8; Francis H. Rogers, Upland, \$8; Dorothy Lindgren, Santa Ana, \$8; Pablo Ortega, Orange, \$8; Herbert L. Miller, Santa Ana, \$8; Leonard L. Bass, Santa Ana, \$8; Russell W. Frisbie, Los Angeles, \$8; Bruce A. Johnston, Santa Ana, \$6; and Dwight W. Loomis, Placentia, \$6.

The American Geographical Society of New York is the oldest geographical society in the country. It was founded in 1852.

Registration of births was not compulsory in England until 1876.

Four Injured in Two Collisions

Four persons were injured slightly in two Santa Ana automobile accidents early today.

Mrs. Margaret Grotzinger, Citrus avenue, Corona, sustained cuts

about the face and arms, when her car overturned in a collision with one driven by William M. Robertson, 1209 West Washington street, at 12:59 a. m. Robertson and his wife each sustained minor cuts.

Yanacio Rubio, 1016 Logan street, received a scratched forehead in a collision with a car

driven by Roy Lo Porto, Corona, at Stafford and Logan streets at 6:28 a. m. today.

About 35,000,000 trees were distributed through federal and state cooperation to farmers in the last year for planting farm forests, windbreaks and shelterbelts.

FOURTH AND MAIN SANTA ANA PHONE 2181

Little Johnnies and Susies May Foil Report Menace

WASHINGTON, (AP)—Parents accustomed to threatening Johnny with a whipping if he doesn't bring home a perfect report card are due for a jolt this autumn.

Johnny may not get a report card.

Dr. Mary Dabney Davis, elementary education specialist at the office of education, said today many schools are replacing the periodic report card by conferences between teachers and parents.

Others, she said, use a new type card. It not only gives a more detailed report of the child's school activities, but also has blanks for

parents to fill out, too, regarding the child's outside reading and other home activities.

She said the trend in modern report cards is to devote as much space to behavior as to subjects. Orderliness, cooperation and leadership are closely graded.

"The emphasis continues to be on individual rather than mass education," Dr. Davis said.

Several schools over the country, she said, will open this autumn without the traditional grade-A-year promotion system. Students will be promoted at the end of the third and sixth grades.

Mary Stoddard

"Puzzled Widow" Will Take Sights All Life; Marriage Doesn't Change Men

If a man really loves a woman will he slight her for old friends? "A Puzzled Young Widow" recently put this query to our readers, asking for honest opinions. She's been engaged to a man for two years. He travels most of the time and, when he does come to the city, he visits an old friend who is married and has two children

before he calls on her. He also brings gifts to his friend's wife and their children, but never remembers her two children unless he brings them some candy.

Today one of our subscribers offers her views:

Dear Miss Stoddard: I happened to read the letter you published in your column signed "Puzzled Young Widow," and I feel that I must express my opinion because of my own experience.

Unfortunately, few of us are ever willing to profit by another's experience. However, I feel that I must warn this young woman that if she does not want to spend her life enduring the treatment she describes in her letter, the best thing for her to do is to break off her engagement right now and look around for a man with some degree of discernment and human understanding. She need not expect her present fiancé to change after marriage.

I know, for I, too, married that type of man and I have spent over a quarter of a century playing second fiddle to my husband's numerous relatives. His parents are both dead and have been for many years.

Holidays, birthdays and anniversaries were passed by, and not for financial reasons, either, for the others were remembered. I was always told that he "knew I would understand and that he would make it up to me later."

Well, I am still waiting to have "it made up to me."

I married young, and I can assure you that he has been taught a few things his father never learned, and one of them is that when he marries, his wife must come first. If he doesn't care enough for the girl he marries for her to come before all others, he has no business marrying her and ruining two lives.

just rest assured that it won't after marriage. She might just as well decide now, once and for all and either break her engagement and be unhappy for a time or endure the slights for herself and her children all of her married life. Those are the two courses open to her. She will have to weigh the matter and decide for herself. At least, she can go into it with the full knowledge of what she is facing, while I did not know in time.

Here is good luck to her whatever her choice. Sincerely, A FRIEND.

Thanks "A Friend," for your straightforward advice to "Puzzled Widow." It is true in the majority of cases that men do not change much in this respect after marriage.

I know, for I, too, married that type of man and I have spent over a quarter of a century playing second fiddle to my husband's numerous relatives. His parents are both dead and have been for many years.

Holidays, birthdays and anniversaries were passed by, and not for financial reasons, either, for the others were remembered. I was always told that he "knew I would understand and that he would make it up to me later."

Well, I am still waiting to have "it made up to me."

I married young, and I can assure you that he has been taught a few things his father never learned, and one of them is that when he marries, his wife must come first. If he doesn't care enough for the girl he marries for her to come before all others, he has no business marrying her and ruining two lives.

The man this young widow describes would not make a considerate husband and certainly not a good stepfather. I had a stepfather and such a fine one that few people know he is not my own father. I traveled over 6000 miles to see him a short time ago when he was ill. I am a firm believer in actions speaking louder than words. Talk is cheap, but real love shows in one's actions. If consideration for this young woman and her children doesn't come first now,

3420 DIE ON HIGHWAYS OF NATION

High Death Rate for July Is Reported

CHICAGO, (P)—A total of 3420 persons lost their lives on the nation's streets and highways during July, the national safety council reported today.

The deaths—160 more than in the same month last year—boosted the traffic toll 5 per cent for the month and 12 per cent for the seven month period. The gain, however, was counterbalanced, the council's statisticians said, by a 12 per cent increase in the month's motor mileage.

The increased mileage reduced fatalities per 100,000,000 vehicle miles 7 per cent in July compared to July 1935.

Of the 43 states reporting in the council survey, 11 cut traffic deaths from 1 to 20 per cent. Kansas reported the greatest reduction while Maine was second with a 15 per cent drop.

The greatest decrease was reported by cities in the 25,000 to 50,000 population class. Cities in the 250,000 to 500,000 group had a 15 per cent increase.

What's That Axiom? 'If You Don't at First—'

TOLEDO, Ohio, (P)—A persevering thief stole the same car twice within an hour here, only to have an even more persevering deputy recover it both times.

The officer, Elmer Tift, said he noticed a 14-year-old boy driving the car apprehensively, but the boy parked the car and fled when he sought to question him.

Tift notified the owner, but while that individual was en route with his ignition keys, the car disappeared again. Tift, unaware of the second theft, saw the same boy driving a car, chased him, and discovered that it was the same machine. This time he hung onto both thief and automobile.

Eight-Hour School Day Is Urged

NEW YORK, (American Wire)—Children should go to school eight hours instead of five, according to George D. Strayer, professor of education at Teachers' college, Columbia university. He added that that did not mean all work and no play. He said that the additional hours should be given to enable children to develop hobbies and assure sufficient exercise and recreation after their regular school tasks. There are a lot of mothers who will endorse the idea.

Indians Like Planes—From Distance

VALENTINE, Neb. (P)—Chief Kills-a-Horse and other Sioux braves on the Pine Ridge reservation are having their homes "air-mapped" by the soil conservation bureau of the department of agriculture.

The Indians are interested in the equipment which allows the pilots to take pictures from altitudes of 24,000 feet, but none of them have expressed a desire to go aloft.

"See plenty from ground," one chief commented.

Phones Listed, But Not Wrong No.'s

NEW YORK, (American Wire)—There were 35,028,682 telephones in use throughout the world in 1935, according to statistics of the American Telephone & Telegraph company. Nearly half of the telephones in the world, 17,423,871 are in the United States. The report did not state how many wrong numbers there had been during the year.

Inventions Neither Bane Nor Blessing, Committee Reports

WASHINGTON, (American Wire)—Because inventions create jobs as well as take them away, invention can neither be called an absolute bane nor an absolute blessing, the subcommittee on technology of the national resources committee, appointed by President Roosevelt two years ago, reported today.

The investigators of man-made machines and synthetic materials which tend to disrupt the economic and social systems did not hesitate to declare that "the greatest cause of change in our modern civilization is invention."

STANDARDIZE LIFE

The inventions of the last 35 years have had one immediately notable effect—a standardization of life all over the United States, the report said. It was pointed out that the gasoline engine, the radio, telephone and telephone transport people and messages from one coast to the other in a brief time.

In individual cases, the most distressing effect of new inventions was found to be the throwing of men out of work. On the farm, where half the nation lived 35 years ago, the tractor not only tended to make the horse unnecessary, but lessened the number of hands needed. In industry, new machines took the place of thousands of factory workers.

The inventions of the next 20 years may do even more, the committee declared. If present trends continue, Americans may find

Handies

Sign Language Helps Mexican Tourists Get Service

By the AP Feature Service MEXICO CITY. — Remember "handies"?

Down here they were old stuff before ever the game swept the United States. Mexican tourists who speak no Spanish long have used handies as a sign language for communication with native merchants and waiters.

In these pictures Jose F. Rojas, ambidextrous and ambi-lingual Mexican newspaperman, demonstrates for prospective American visitors three of the words they will need most:

"I WANT A DRINK"

Thumb and little finger extended as hand is jerked toward the mouth. Any barkeep, in Mexico City at least, will understand you.

"AND FOOD"

Fingers bunched as hand is moved toward the mouth. The waiter will bring you something to eat, but you'll have to take your chances on what it may be.

"THAT'S ENOUGH"

Forefinger raised and waved in front of the face. This comes in handy (not handie, you punster) when your Mexican friends urge "just one more." If they don't understand readily, put on your hat and turn to go—as Senor Rojas has done.

Country Brought To New York

NEW YORK, (American Wire)—Gardens are blooming and barnyards are booming on the sidewalks of New York—in trailers.

The department of parks could not afford to send all the youngsters in New York to the country, so they're bringing the country to the city.

One trailer carrying a cow and chickens is touring the 228 playgrounds of the city; another trailer with marigolds, black-eyed susans, fuschias, beans, sweet corn and a variety of flowers and vegetables is following in the wake of the "barnyard" exhibit.

Attendants on each trailer answer the youngsters' questions about farming and gardening.

Guy Fawkes was hanged during the reign of James I as a conspirator in the Gunpowder Plot to blow up the Houses of Parliament.

Country Brought To New York

NEW YORK, (American Wire)—Gardens are blooming and barnyards are booming on the sidewalks of New York—in trailers.

The department of parks could not afford to send all the youngsters in New York to the country, so they're bringing the country to the city.

One trailer carrying a cow and chickens is touring the 228 playgrounds of the city; another trailer with marigolds, black-eyed susans, fuschias, beans, sweet corn and a variety of flowers and vegetables is following in the wake of the "barnyard" exhibit.

Attendants on each trailer answer the youngsters' questions about farming and gardening.

Guy Fawkes was hanged during the reign of James I as a conspirator in the Gunpowder Plot to blow up the Houses of Parliament.

themselves in a noiseless, smokeless and labor-saving world, but a great part of their number may be sinking lower and lower in social levels because while industries were wiped out.

Another bogey reported by the committee was the photo-electric cell which unlike any other invention of man can see. The committee found 142 different uses of the electric eye, including the sorting of defective manufactured articles from good ones, opening doors, directing traffic and protecting property with fool-proof burglar and fire alarms. The committee conservatively estimated that the photo-electric cell could replace a million workers all over the nation.

Possible trouble ahead for farmers was seen. The committee said there would be an ever-widening gap between the modern mechanized farmer and the farm tenant who could not afford machinery. The big wealthy farmers will absorb the small farmers, it was predicted.

Tonsils Gone, Dog's in Good Voice Again

Spider: His tonsils bothered him. EL PASO, Tex. (P)—"Spider," the sad little black-and-tan dog, is happier now. His tonsils, cause of a doggone bad sore throat, are out. What with influenza, bronchitis and finally tonsillitis, Spider was feeling as woe-begone as he looked. Then his owner, Davis Green, wrapped his throat in a towel and took him to a veterinarian.

NAVY BOMBERS HAVE COMFORT

WASHINGTON. (P)—If Uncle Sam's naval aviators should by some strange turn of events be called on to bomb any foreign cities, they would do their work in solid comfort. The latest "flying boat" bomber developed by the navy has a galley that would make any housewife's eyes shine. It's complete with electric stove, water distiller and even a dry ice refrigerator. There's also a telephone system aboard.

Soviets Discover Ancient Village

MOSCOW. (P)—Soviet archaeologists reported today the discovery of a prehistoric dwelling made of clay which they estimated as 35,000 years old. Besides the hut they found bone and flint implements, including arrowheads. The discovery was made at the village of Kostenka, Voronezh province, by a joint expedition of the Institute of Ethnography and the Institute of History and Material Culture.

Farmers Try Breeding Coypu

SCIO, Ore. (P)—Coypu raising is one of the latest ventures to attract Oregonians. This is the South American animal which supplies the fur known as nutria. Several farms are now operating in this state, and pelts sell for \$20 to \$30. The coypu breeds rapidly, but the young are often destroyed by seagulls. The adults, weighing up to 25 pounds, resemble beaver.

Nothing Like Being Witness and Judge

OMAHA, Neb. (P)—Municipal Judge Lester Palmer was chief witness and judge when Helen Sternberg appeared in court on reckless driving charges. Her car struck a man. Palmer, the witness who saw the accident, said, "It was a case of extreme negligence." Palmer, the judge, said, "Twenty-five dollars and costs." The defendant appealed to a higher court.

Prosperous Fall Coming Says Roger W. Babson

The best business in nine years is coming within the next few months, Roger W. Babson, internationally known economist, predicted in a business review made public today. He advised business men to fill sales shelves and have promotion plans and advertising campaigns ready. His report follows: "July 24. Sentiment has improved noticeably in the past fortnight. The gloom of early July is gradually lifting and confidence is slowly healing. "There are so many encouraging signs in the outlook that I cannot help being optimistic on fall trade prospects. To back up my bullishness, I am discussing ten reasons why business should press further toward prosperity after Labor day. **TEN FACTORS** 1. Crop prospects best in 10 years. 2. Purchasing power highest since 1929. 3. Labor troubles on wane for 1937. 4. Congress nearer to adjournment. 5. Building costs easing off. 6. Inventories of goods not burdensome. 7. New industries forging ahead. 8. Foreign trade making great progress. 9. French crisis apparently passed. 10. Basic trend of business still upward. **PROSPECTS GOOD** "Crop prospects are exceptionally good. Big harvests of grains, fruits, vegetables, cotton, tobacco; high egg and milk yields; good feed conditions for livestock; these all point to the best year on the American farm since 1929. Activity is already picking up where the harvest is under way. More traffic for railroads; a step-up for

CONTROL OF PAIN BY MIND SHOWN

'Hypnotism' Tried By Scientists

MINNEAPOLIS. (P)—New medical experiments showing that the mind can control effects of pain were reported to the American Association of Applied and Professional Psychologists here today by Ralph R. Brown, psychologist, and Victor H. Vogel, M. D., past assistant surgeon, both of the United States public health service. "They had four persons with tacks pricking their feet try to imagine they felt no pain. All continued to hurt, but the imagination caused unexpected physical modifications. Without trying to will the pain away blood pressure tended to rise, pulses went up, breathing was faster, trembling greater and electrical potentials of the skin changed. These changes were involuntary. But they became less when the patient tried to imagine there was no pain. This was verified by hypnotizing the same four with tacks pricking their feet. They had no memory of pain. But their bodies showed all the involuntary reactions of pain. The reactions were smaller under the influence of hypnotism. But no smaller than when the patients tried to imagine there was no pain. "It appears," the health officials reported, "that in the subjects which we have observed, imagination in the normal waking state may be just about as effective with respect to influencing the physiological reactions to pain as that which may be observed following suggestion in the trance state (hypnotism). "The effects produced by imagination in the waking state are of significance in demonstrating the possibility of voluntarily influencing those physiological processes which have generally been considered as autonomous."

Parking Test Stumps Many

BETHEDA, Md. (P)—After all these years the state of Maryland has decided that the holder of a driving permit should know how to park his car. And so, behold the new gadget the motor vehicle department's examiners are carting around with them: The thing looks very much like a plumber's nightmare, with a lot of elbow joints. Set up along a curb, the gadget marks off a parking area a little longer than the average automobile. The trick of the examiner is to tell the applicant for a license to park his car within the bounds of the iron frame. It is so easy, but 20 applicants missed the target in one day, and failed to get a driver's license.

Seats to Shift In Supreme Court

WASHINGTON. (P)—The entrance of Justice Hugo L. Black, former senator from Alabama in the supreme court chamber, will bring a shift in the seating arrangement. Since justices are seated according to seniority along the bench, the Alabamian will take his seat on the extreme right. This means the justices will sit, from left to right, like this: Cardozo, Stone, Sutherland, McReynolds, Hughes, Brandeis, Butler, Roberts and Black.

SEEK POLICE CHANGE IN LAGUNA

Council Considers Proposed Plan

LAGUNA BEACH. — A joint committee of more than 20 American Legion and chamber of commerce members walked into the city council chambers Wednesday night to request that "modern methods" of crime prevention be followed in the police department.

The request called for a desk-sergeant service manned by three policemen, one of whom would be drawn from the present force, a new man, and an "expert" trained in crime detection methods. Councilman Charles Jester manifested considerable opposition to the request on grounds of insufficient funds, that the present force was adequate, that Laguna had a low crime percentage, and that an outside expert wouldn't be popular.

BAKER SPEAKS

Roy A. Baker, Legion member and chamber director, spoke at length on behalf of the joint committee, citing cases of lawlessness, the rapid growth of Laguna in stressing the need for the modernization of the force. He pointed out to Jester, however, that the request was not intended to mean a call for Chief Abe Johnson's ouster.

Mayor L. F. Mallow agreed that better coordination within the police force was needed. Jester's motion that the communication from the joint committee be filed without finding a second. The council will meet in committee to discuss the Chamber-Legion request.

STEAD KEEPS JOB

Another Jester motion — that the office of city engineer be immediately declared vacant — also died for want of second. Councilmen Cummings and Bainbridge expressed themselves emphatically that they "wouldn't vote to kick Arthur J. Stead out of office."

When Jester complained that for over a year the city engineer change had been hanging fire, Councilman Cummings pointed out that Jester had always been alone in the suggestion. "But we were satisfied," he replied.

Other councilmen evaded Jester's direct questions relative to dismissing Stead with detailed discussions of public street improvements. Finally Jester remarked, "The public will not go in for improvements so long as Stead is in there!"

GROVE LIONS PLAN PROGRAM

GARDEN GROVE. — Plans of the various Lions club committees for the coming year occupied most of the luncheon period at Wednesday's meeting with J. W. Crill giving a short talk on his recent northern California trip and the agricultural problems of the north.

An attendance contest starting Oct. 13 was announced by the attendance chairman, Clair Head, and a ladies' night was planned for the week of Sept. 20 with L. W. Schauer named as chairman of the committee.

Others of the chairmen speaking on their plans were Crill on membership; Dr. C. C. Violett, Lions' education; Don Vance, publicity; Schauer, activities; Leslie Waigot, programs, and Dick Haster, reception.

PURE FOOD LAW IS SOUGHT

LAGUNA BEACH. — City Attorney Milburn G. Harvey and Health Commissioner Thomas Cummings will meet soon with Dr. H. K. Sutherland, county health inspector, relative to the local American Legion post's suggested "food-handlers' ordinance."

When Hugh Peabody, Legionnaire, appeared before the council with the written urge from the Legion that the city council pass an ordinance making mandatory medical examinations from all those handling foodstuffs, Harvey and Cummings were delegated to look into the matter.

Mayor L. F. Mallow immediately questioned Peabody as to whether the trend was universal throughout the county. The Legionnaire cited the Journal's statement Monday which told of Dr. Sutherland's approval of any Laguna Beach action toward the prevention of communicable diseases.

Sons of Legion Install Heads

NEWPORT-BALBOA. — The regular meetings of the Sons of the American Legion was held Tuesday evening in the Newport legion hall, at which time new officers were installed by Legionnaires Russell Norton and Robert C. Fisher.

Officers installed were Jack Osgood, Balboa Island, captain; Thomas Grube, Costa Mesa, first lieutenant; Buddy Gordon, Newport Beach, second lieutenant; George Crocker, Balboa, chaplain; Loren Langmade, Balboa Island, sergeant-at-arms; Jule Marshall, Balboa Island, and Dan Patch, Costa Mesa, colorbearers. Name of the new adjutant will be announced later by the captain of the squadron.

James Looney was introduced as a prospective member. Visitors included legionnaires and parents of the boys. Next meeting will be on Sept. 7.

GROWING PAINS

By Phillips

"Some day I'm going to travel—I've always had a desire to see what's in the next block."

Many Swordfish Catches Recorded at Newport-Balboa

NEWPORT-BALBOA. — With Newport waters reported teeming with swordfish and tuna, sport-fishermen have enjoyed one of the most profitable weeks in years, authorities said today, many Marlin being brought into the harbor for weighing at the Balboa Angling station on Washington pier.

Dwight Hirsch of West Los Angeles topped all comers for the week with his catch, which weighed 210 pounds and which he landed in 1 hour, 50 minutes. He was fishing with regulation tackle from Capt. Jimmie Stephenson's boat Daisy.

Other catches during the past few days were reported by D. R. Thomas of La Jolla, who took a 143-pounder from Harry Davis' boat.

George Deives caught a Marlin weighing 129 pounds from Capt. Jess Skeen's Georgia, M. A. Lowe of Alhambra took a 158-pounder while fishing on Capt. Bert Mills' Monna and J. R. Stephen, Los Angeles landed another Marlin weighing 129 pounds aboard the Dandee, J. B. McNally's Scotch fleet flagship.

Many of the parties reported large catches of yellowfin tuna, with as many as 10 and 12 of the fighting fish being brought in by trolling boats. "The fish story of the week was told by a fisherman aboard the Miss Alhambra, live-bait boat, who hooked a huge Marlin swordfish on light tackle used for barracuda. He battled the fish 55 minutes before it broke the line."

Other catches during the past few days were reported by D. R. Thomas of La Jolla, who took a 143-pounder from Harry Davis' boat.

George Deives caught a Marlin weighing 129 pounds from Capt. Jess Skeen's Georgia, M. A. Lowe of Alhambra took a 158-pounder while fishing on Capt. Bert Mills' Monna and J. R. Stephen, Los Angeles landed another Marlin weighing 129 pounds aboard the Dandee, J. B. McNally's Scotch fleet flagship.

MESA W. R. C. SESSION SET

COSTA MESA. — W. R. C. members met Wednesday afternoon in the social hall of Community church, when it was announced that inspection day will be Oct. 6, Eliza Johnson, of Inglewood, to be the inspector in charge. President Daisy Radabaugh, Gertrude Colquhoun, and all members be present for this meeting.

Rowena Erickson and Jennie Groenke were initiated into the corps. Members present were Daisy Radabaugh, Gertrude Colquhoun, Alvina Ober, Clara Rollins, Alice King, Louise Bechtold, Hazel Gill, Rowena Erickson, Jennie Groenke and Phoebe Mortimer.

News About El Toro Folks

By MRS. CARRIE G. DREWS
Mrs. Rose Hicks left El Toro Wednesday for Topeka, Kan., where she will be remarried to John Hicks of that city. Knowing her as a splendid friend and neighbor, we wish her the greatest of happiness.

Mrs. George K. Fox is staying in Laguna Beach with her niece while recovering from an illness. Her husband is much better, and able to carry on in her absence. We hope she will return soon, very well.

Will M. Woodhouse and Frank J. Klipitzky entertained guests in their El Toro home Thursday, and again with a dinner in their beach cabin at Salt creek Friday. Mrs. Mary Smith of Santa Ana, Mrs. Brown of Astoria and Miss Florence Boehm, formerly of El Toro, making up part of the party.

Mrs. L. F. Moulton spent a few days last week in Idyllwild with Mrs. Cyril J. Gail of Santa Monica, her sister-in-law. Louise Moulton recently returned to Davis, where she will continue her special studies in the state agricultural college there.

Sidney Waterman and wife visited her parents, Mr. and Mrs. Rube Waterman, here last week.

Costa Mesa. — According to a report made Sept. 1 by Mrs. Loreta Pangle, supervisor of the WPA sewing unit, during the 40 working days in July and August, the 27 employees under her supervision completed a total of 1888 men's shirts, 13 hand-knitted sweaters, 42 play suits, 12 aprons, 24 pairs of shorts and various samples.

Two of the 28 persons employed on the project are men, not engaged in the actual sewing operations. The labor is drawn from Newport, Balboa, Costa Mesa and Laguna Beach.

SON OF JUDGE DODGE TO WED
COSTA MESA. — September 18 has been named as the wedding date for Miss Cecyl McMillan, daughter of Mrs. Hugh McMillan, of Newport Beach, and Jack Dodge, son of Judge and Mrs. D. J. Dodge, Costa Mesa.

The event, which will be solemnized in the Santa Ana Wedding chapel, will be attended by relatives of the bride couple. Miss Eleanor Brooks has been selected by Miss McMillan as maid of honor, the latter's brother, Hugh McMillan to act as best man, The Rev. W. I. Lowe, former Community church pastor, will officiate. The bride will be given in marriage by her uncle, Fred Howard, of Anaheim.

After a week's trip the young couple will make their home in Santa Monica where he is employed by the Douglas Aircraft company.

MODIST MAIDENS
NEWPORT-BALBOA. — The regular meetings of the Modist Maidens of the American Legion was held Tuesday evening in the Newport legion hall, at which time new officers were installed by Legionnaires Russell Norton and Robert C. Fisher.

Officers installed were Jack Osgood, Balboa Island, captain; Thomas Grube, Costa Mesa, first lieutenant; Buddy Gordon, Newport Beach, second lieutenant; George Crocker, Balboa, chaplain; Loren Langmade, Balboa Island, sergeant-at-arms; Jule Marshall, Balboa Island, and Dan Patch, Costa Mesa, colorbearers. New York Stocks

By VICTOR EUBANK

NEW YORK. (AP)—Stocks pulled themselves up hand-over-hand in today's market and at the best the registered recoveries of 1 to more than 3 points.

Dealings were exceptionally slow on the comeback, however, and the lack of vigor encouraged sufficient selling in the final hour to set down on marks substantially in many cases. A few losers also were in evidence at the close.

There was no special stimulation in the news and brokers suggested day-to-day traders may have climbed aboard early for quick-turn profits on the theory the list had been oversold and was due for at least a brief rally.

Some short covering was reported by those who wished to extend the Labor day holiday without worrying over what may happen in the many cases. A few sidelines because of the cloudiness of Far Eastern and European affairs.

Transfers were in the neighborhood of 700,000 shares.

Townsend News Views

By
WALTER R. ROBB

An International News Service dispatch from Washington on Aug. 29 said, "A nation-wide struggle for control of the Townsend old age pension movement will be made in the next three months." The statement is credited to Representative Charles Crosby, Pennsylvania Democrat and chairman of the General Welfare Steering committee. This is the committee whose resolution asking the Townsend clubs to desert the leadership of Dr. Francis E. Townsend, which was quoted by Representative Harry R. Sheppard in his letter of June 9 sent generally to the clubs of the 19th district.

The dispatch says, "A strong campaign will be made during the congressional recess to persuade Townsend club to enter the General Welfare organization." According to Crosby, "The contest will be waged between the General Welfare clubs, formed after a split in the old age pension organization of Dr. Francis E. Townsend, and the Townsend movement." The news release says, by the steering committee and Arthur L. Johnson of California, legislative agent and executive head of the General Welfare movement supplemented by at least 20 congressmen who will participate in making speeches.

The writer of this column regards it as fortunate that the real purpose of the General Welfare organization is thus made known. Like the Townsend investigation committee of the 74th congress which sought the destruction of the Townsend movement, so the General Welfare steering committee of the 75th congress also plans. The investigating committee took the path of discrediting the doctor with his followers by an attempted besmirching of his reputation. The General Welfare organization seeks the destruction of the Townsend movement by political intrigue. The first attempt failed of its purpose and so will this latter one. The ones who will be disillusioned before the fight is over will be the members of the General Welfare steering committee. The writer expects to see some of them in political difficulties before the 1938 election campaign is over.

Now that the steering committee group and the General Welfare organization are both out in the open with the avowed purpose of stealing the doctor's organization, the Townsends will know the right attitude to assume. All but the exceptionally glib will see through the new effort to curtail the power of the Townsend followers and will repudiate the attempt at supplanting the Townsend founder's leadership. Getting the Townsend clubs to desert the leadership of Dr. Francis E. Townsend won't be such an easy task as the steering committee may imagine but the way the Townsends will desert congressmen in the next election campaign won't be slow. Mr. Crosby was elected in the last campaign by a majority that was greater in his own district than that enjoyed by President Roosevelt but that was when he was hanging onto the coat-tails of both the President and Dr. Townsend. In the next campaign he will find hanging on to the President's coat-tail only, won't work so well as will some other congressmen who don't reside so far away.

The statement by Representative Crosby in which he refers to "a split in the old age pension organization of Dr. Francis E. Townsend and the Townsend movement" should not be taken seriously by the Orange county Townsends. There has been no split of consequence. A letter recently received by Dist. Mgr. J. H. Walsh of this district from Roy Webb, field representative of Dr. Townsend, says that 98 per cent of all the Townsend clubs in the nation are sticking with the doctor and his movement. Mr. Webb is a former district manager of the 19th district and so a letter from him is hearing from home folks and its information can be depended upon as being reliable. Our organization will gain more new members shortly than it will ever lose to the General Welfare organization so there's nothing to worry about.

"To be forewarned is to be forearmed" is the reason for this article. The congressman from this district will be coming back to the district shortly and it is generally presumed that he will line up with the General Welfare organization. If he does, that is his privilege. It will also be the privilege of the Townsend club members to repudiate such an attempted leadership and stick with the doctor as the writer is confident the Orange county clubs are wise enough to do. Townsends should bear in mind that as a usual thing congressmen are important personages in the eyes of the nation only so long as they remain the people's representatives. That is why Townsends will be slow to substitute the leadership of Dr. Francis E. Townsend in connection with old age annuity legislation for that of the more or less transitory type of leadership represented by congressmen. Dr. Townsend is great in the power of national leadership in his own right because of already existing accomplishments. The majority of these congressional critics of the doctor cannot lay claim to any such distinction.

HOOVER TELLS PLANS FOR CONVENTION

Mid-Term Republican Session Draws Fire

By L. A. BROPHY

NEW YORK, (AP) — Herbert Hoover's suggestion for a "mid-term" convention of the Republican party has caused a sharp division of opinion among leaders over the nation, many favoring it and others definitely in opposition. The Hoover thought, tossed into the middle of eddying discussions over party policies and strategy, has stimulated discussions over party leadership and "whether we are drifting" among the Republican executives, the national committeemen and women, and the state and county chairmen.

A country-wide survey by the Associated Press today brought expressions from leaders of the party in 25 states. The Hoover proposal seemed to find favor with state and county chairmen; at least 15 well known members of the national committee said they approved it. Other committee members were warily lukewarm, many wheel-horses refused to comment.

Alf Landon, titular head of the party, had no comment, but opposition came from Frank Todd, Kansas Republican state chairman. Todd said he did not favor a national "grass roots" convention. He believes organization by precinct superior.

OPEN NEW SHOE STORE HERE

Blackburn's Correct Footwear will open a new store at 503 1/2 North Main street tomorrow morning. The store is to adjoin the Sears-Roebuck store.

Earl D. Blackburn, proprietor, has been in the corrective footwear business for several years in Long Beach. He has closed his store there, moving to Santa Ana to be nearer an ever-increasing Orange county clientele.

Blackburn will be assisted by Mrs. Blackburn. She has just completed a comprehensive course in orthodoxy in a Los Angeles clinic.

Both the Blackburns have lived in Orange county for many years, owning their own home in the Fullerton area.

The new shop is to feature style and corrective footwear priced to suit the budget of the average family. The shop will be equipped to handle all cases and degrees of foot disorders. It is the aim of Blackburn to cooperate with the medical profession in supplying the proper footwear.

Dots and dashes after a 15-minute chat at Vic Walker's with G. A. (Tex) Oliver, the Arizona coach:

Al Titensor, the Dons' captain and end on their Southland championship band last fall, is definitely slated for Tucson, and will leave Sunday with two teammates, Bob Holmes and Fred Erdhaus. Holmes, 200-pounder who centered for Bill Cook last fall, made a deep impression in spring practice at the Arizona university, where he entered in February.

Oliver, just back from a coaching conference in Chicago, says he picked up several new pointers from Dana X. Bible, Lynn Waldorf and Gus Dorais. He watched the all-star collegians drill against the Green Bay Packers, and was ga-ga over the passing of the Texas Christian star, Sam Baugh.

"That guy passes like a bullet, and hits the target about seven out of eight times. I've seen many overrated backfield men, but this Baugh is everything they say he is." The collegians' 6-0 victory was no great surprise to Oliver. He didn't stay for the game because of a hurried trip to Santa Ana to protect his "diggings" in these parts. "Tex" relies on Orange county annually to furnish the Arizona a few choice prospects. Prep stars like to go there because they know what Oliver did in coaching Santa Ana High school to championships in 1931 and '32.

Teams pass differently in the East and Mid-west than on the coast. The plays are about the same, but the passers hold the ball nearer the end, and their fingers are on each side of the seam. Minnesota's change is unique. The Gophers lunge, then come almost to a standing position, and lunge again, Oliver says. "Tex" may remain over in Santa Ana until next Tuesday.

"Why don't you run it out, you lazy louse?" That remark, hurled at Pitcher Jack Dugan of the Stars in a recent game after he had grounded infield, burned the ears of press row.

The inconsiderate fan should learn—before another of those verbal blasts—that Dugan has been hobbling around all season with torn ligaments in his knee. He's no Scabiscut on the base-lines, but does the best he can under the circumstances. It is grossly unfair to say that Dugan doesn't try.

How many fans climbed into the family bus and headed for an evening of boxing entertainment at the Orange County Athletic club last night? Absence makes the heart grow fonder for the sport. Fight interest should be at a high pitch when Promoter Sam Sampson revives the fistie wars with the professional variety here in October.

First to don suits in the Eastern Jaycee conference was San Bernardino's Indians, who turned out 35 strong to Coach Doug Smith on the oak Wednesday. The Texan tour plans night drills until San Bernardino's first practice game at Glendale, Sept. 17.

Charlie Grimm still insists his Cubs will bring home the batting. Joe DiMaggio is finding the going tough in the western badlands this trip. So far his average is around .244. On the May trip he hit for .270, in June at a .377 clip, while on the last swing he exploded to the tune of .450.

John Henry Lewis may go to Los Angeles to fight Alberto Lovell under the Joe Levy banner. One New York paper hears the agreement between the three big league clubs here banning broadcasting of games soon may be dissolved. Jimmy Braddock is guest star at Barney Ross' Female training camp.

ORANGE GIRLS
VIE TONIGHT

An Amazon who plays center-field in her bare feet, Lois Roberts, will be in Al Hill's all-star girls' lineup that plays the Orange Lionettes on the Orange city park grounds at 8:15 tonight.

It will be Lois Roberts' last start on the mound for the Orange girls until their bid for the Southern California championship in The Examiner's annual tournament opening Tuesday night. Either Virginia Faulkner or Virginia Morris will hurl for the Fiedler field nine.

McCarthy's 2 Homers Keep Giants on Top

CARDS UPSET
5-4; CHICAGO
HUMBLED, 4-3Terry Terriers Play
In Luck as Dodgers
Trouble Cubs' Nine

By SID FEDER
Associated Press Sports Writer
Social note: Larry Luck is that way about Bill Terry again. The romance that waxed warm just about this time last season, and then cooled off for much of the early part of the current campaign, is blossoming again. Everything is breaking right for the colonel from Memphis as his New York Giants. His pitchers have started to click again, his attack is timely if not murderous, and his nearest rivals for the National league pennant are falling apart with all the consistency of a layer cake hit with a sledge hammer.

What with this and that, the Terry Terriers were a full game in front in the National league pennant parade today. Their 5-4 win over the Cardinals yesterday, coupled with the Dodgers' 3-0 decision over the second-place Cubs, left the championship chase in this form:

	To	W. L. Pct. Play
Giants	73	47 .608 34
Cubs	73	49 .598 32

Only a few days ago, the experts were referring to McCarthy as the "minor league" member of the Giants' cast. He was given a chance at first base earlier in the year, was benched in favor of the ailing but heavier-hitting Sambo Leslie, but had to be recalled several days ago when Leslie returned to the hospital list. And Johnny is marching home with his bat.

He was the No. 1 wallpaper yesterday in the 10-inning win over the Cards. He whacked two homers to make up for a fielding collapse on the part of the New Yorkers and kept the Giants in the game long enough for Mel Ott's 30th round-tripper and a trio of assorted blows in the extra frame to pull the Giants in.

At the same time, the Daffy Dodgers, who, unlike elephants, seem to have forgotten all about Terry's classic crack—"are the Dodgers still in this league"—that started their row with the Giants in '34, aided and abetted the New York cause. Of course, the Cubs continued beating themselves as they dove for the second straight day before the Dodgers, but their 11-inning wallowing at the hands of the Brooklynians made it all the more conclusive that "things ain't what they used to be" on the banks of the Gowanus.

ELLER STOPS YANKS
Meanwhile, the Yankees and their slump ran into young Bob Feller and the alleged Murderers' Row took a terrific kicking around. Young Bob, looking a lot like a pitcher, fanned a dozen and allowed five hits as he hurled the Tribe to a 4-2 win despite Joe DiMaggio's 39th birthday.

Hank Greenberg poked two homers and the Tigers topped the Senators, 9-8, in 10 innings to cut the Yanks' lead to 10 games. The White Sox socked the Red Sox twice, 4-2 and 10-8, and the Athletics trimmed the Browns, 5-3, on Bill Werber's drive with bases loaded. The Pirates' five-run rally in the ninth beat the Phillies, 11-8. The Bees and Reds were idle.

LEE 10-6 OVER
CHIEF PARIS

HOLLYWOOD. (P)—Glen Lee, Nebraska woodpecker, whose backers claim they will guarantee Freddie Steele \$25,000 for a middleweight title bout, tonight meets Chief Paris, Oklahoma Indian, in a 10-rounder at Legion stadium.

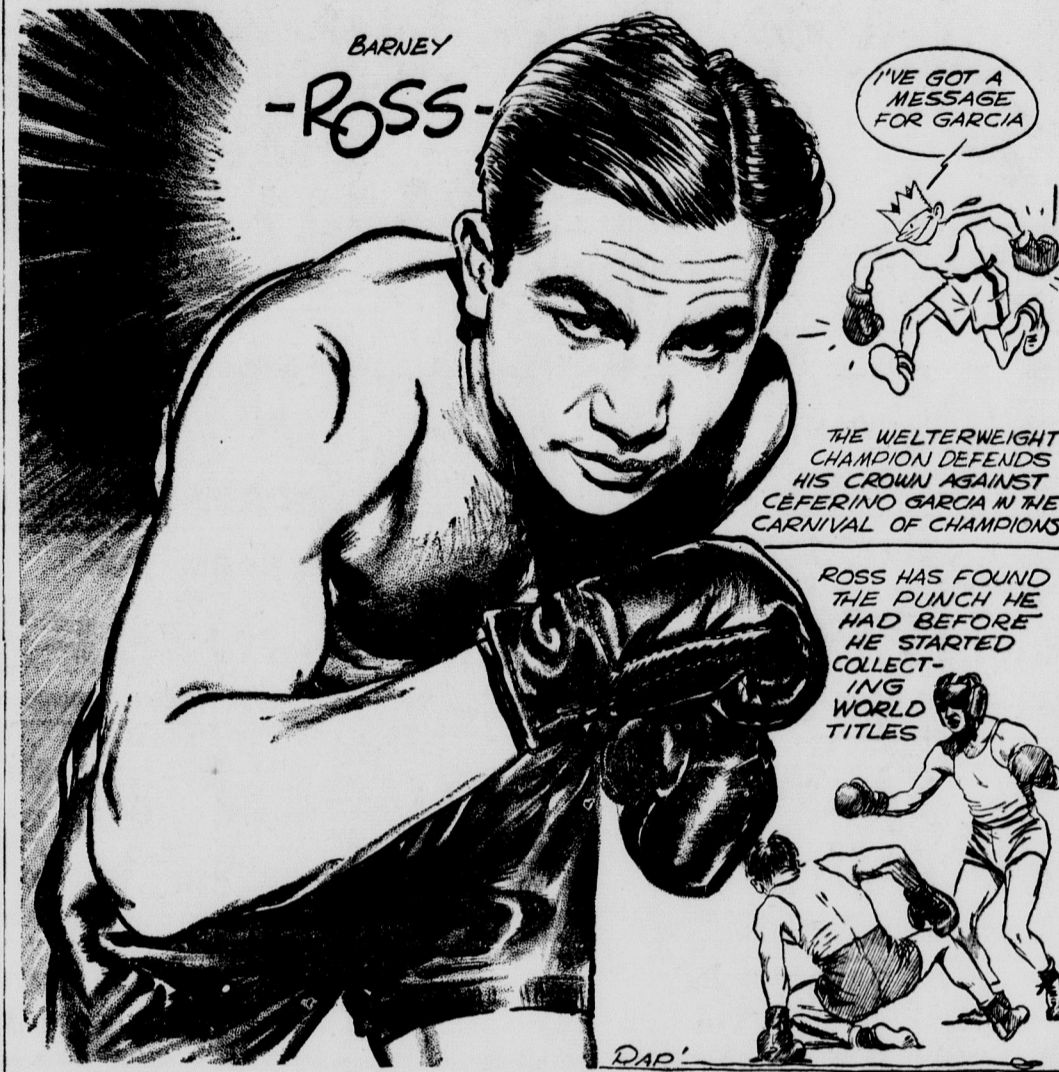

Promoter Tom Gallery was reported dickering today for the championship attraction, with Wrigley Field at Los Angeles as probable site.

Lee was a 10-6 favorite over the durable Oklahoman, who out-pointed him over the 10-round tour nearly a year ago.

Major Leaders

NATIONAL
Batting—Medwick, Cardinals, .392; P. Waner, Pirates, .375.

Defends Crown Against Ceferino Garcia

MERMAIDS IN
A. A. U. MEETOlympic Aces Swim
In San Francisco's
Famous 900-ft. Pool

SAN FRANCISCO. (P)—Hard by the Pacific ocean in the world's largest outdoor pool, America's best feminine swimmers and divers open a four-day attack on national records today.

It's the Senior Women's A. A. U. championships, which this year brings out nearly 100 beautiful and skilled mermaids, including several Olympic and American titlists.

Opening events are the 10-foot board diving, 100 meters and one mile free style races.

Favorites in the springboard event is little 14-year-old Marjorie Gestring of Los Angeles, last year's Olympic games champion, who expected most serious competition from the defending titlist, Claudia Eckert of Chicago.

Other contenders include Arlene Smith of Chicago; Ruth Nurni, Los Angeles; Helen Crenkovich, San Francisco; Mary Hoegar, Miami; and Jean Smith, Kansas City.

Fourteen of the country's speediest swimmers were entered in the 100-meter free style race, in which slender Toni Redfern, Virginia schoolgirl, is defending champion. The large number of entrants requires elimination heats this morning to qualify eight for the afternoon's finals.

The 100 meter race will be swum in a straight course. The salt water Fleishacker pool, beside the beach, is 900 feet long.

SPORTS
RoundupBy
EDDIE
BRIETZ

NEW YORK. (P)—Schoolboy Rowe and Daddy Dean, both nursing ailing arms, are barnstorming around Texas. They do three and four inning turns against each other in semi-pro and East Texas league games. Jimmy Braddock and Joe Gould have gone into business—the B and G Trucking Co. (No charge for the ad, boys.)

Gould came down from the country yesterday with a pocket full of G notes and bought five trucks. Bill Terry appears on Giant letter-headers as "general manager."

The West Side Casino, down at Long Branch, is tossing a testimonial dinner for Tommy Farr Tuesday night. Ernie Dusek, the burper, is credited with having the most powerful neck muscles of any grappler since the days of old Farmer Burns.

The Farmer used to balance an iron rod on his adam's apple while lying prone on the floor and invite his admirers to stand on each end of the bar. With the start of football practice, it is the open season for plain and fancy moaning.

Texas fans say those who think Duke and Pitt are going to play the outstanding game of the season had better not bet on it until after Ohio State and Texas Christian collide. Sam Snead, the golf crack, caddied for Helen Hicks when she played in her first national tournament down in West Virginia some years back. The other day Sammy gave Helen a few lessons on how to improve her stance.

YESTERDAY'S
STARS

BILL WEBBER, Athletics—His double and Pitt's bases loaded drove in three runs to whip Browns, 5-3.
MAX BUTCHER, Dodgers—Single in 11th to send winning run across for 4-3 win over Cubs, after pitching hitless ball in two-inning relief trick.
HANK GREENBERG, Tigers—Hit two homers, one in tenth to beat Senators, 9-8; drove in four runs.
WOODY JENSEN, Pirates—Hit five-for-five, including two doubles and a triple, and drove two runs in 11-8 win over Phillies.
JOHNNY MCCARTHY, Giants—Hit two homers and single, driving in three runs, in 5-4 win over Cardinals.
THORNTON LEE, BOZE BERGER and LUKE APPLING, White Sox—Lee beat Red Sox with four hits, aided by Berger's two homers, in double-header opener; Appling hit double, two singles, driving in four runs, in 10-8 nightcap victory.

PADRES OUST
SOLON NINESan Diego Shuts Out
Seals, 5-0, as Sacs
Bow to Oakland, 4-3

SAN DIEGO resumed leadership of the Pacific Coast league today after the Oakland A's literally blasted Sacramento out of first place and Manuel Salvo's effective five-hit pitching gave the Padres a 5 to 0 shutout over the San Francisco Seals.

Salvo fanned 11 to raise his total of strike-outs for the season to 169. It was his 17th victory. The Padres had little trouble winning their third straight from the Seals. They converted three hits, three walks, and a hit batsman into three runs in the first inning.

Bill Shores, Seal pitcher, fanned eight and Salvo was a three-time victim of Shores' slants. The Padres' George McDonald snared three of the seven hits made off Shores.

Don took a 4 to 3 decision from the Senators when Ernie Bonham fanned 12, to retain his strike-out leadership of Coast league hurlers with a 173 total. Merrill May and Jimmy Hitchcock hit homers and Dario Lodigiani smacked a triple in the eighth to score Ernie Koy with the winning run.

Johnny Vezex accounted for two of the Sacramento runs with a circuit clout in the fifth with one mate aboard. The victory was Bonham's 17th.

Portland won its first victory in 11 home games last night when it pounced on Don Osborn for 12 hits to defeat Seattle, 11 to 3. In the second inning Osborn sent Steve Coscarart of the Beavers to the hospital when he heaved him with a wild pitch. Hospital attendants said Coscarart's injury was not serious.

Fred Bedore was responsible for three Beavers runs when he cracked out a homer in the eighth with two on. The win put Portland within three games of the first division.

Guldahl, Mangrum
Break Par With
67 in \$5000 Open

HERSHEY, Pa. (P)—Ralph Guldahl of Chicago, National Open golf champion, and Ray Mangrum of Dayton, Ohio, awoke in this model community near Harrisburg today, confident of setting a new record for the 72-hole \$5000 Hershey Open.

Each turned in a sizzling six-under-par 67 in the first round yesterday to equal the course record. All they have to do to equal the 72-hole record of 286 made by Ky Leffoon, Colo., three years ago, is shoot part 73 for the remaining three rounds today, tomorrow and Sunday.

Wrestling Last Night

NORTH BERGEN, N. J.—Jack Kennedy, 217, Iowa, pinned Hank Barber, 220, Boston (25:26).
NEW YORK—Ernie Dusek, 228, Omaha, pinned Stanley Pinto, 216, California (30:27).
WASHINGTON—Ray Steele, 215, Glendale, Calif., pinned Reb Russell, 221, Chicago (19:30).

ANAHEIM NINE
SHUTS OUT
OILERS, 4-0Schwarm to Replace
Wiemer; Dugan
Sidelines at S. B.

Seeking a comeback similar to Anaheim's sparkling 4-0 shutout over Huntington Beach last night, Santa Ana's juggled Stars make the long hop to San Bernardino tonight for the third game of their Shaughnessy playoff series at Peris Hill park at 8:15.

Manager "Doc" Smith's Stars will be fighting with their backs to the wall, following 7-0 and 4-2 losses to Venn Bott's fancy-Francing Ponies. Manager Botts, veteran righthander who set the Smiths down with three hits in the first game, will be on the firing line again tonight.

COATES ON MOUND

Jimmy Coates, No. 1 pitcher last year who has just returned from Visalia, will not go into right field again for the Stars, but will replace Jack Dugan on the ridge.

Bob Schwarm will replace Fred Wiemer in center field for Santa Ana.

The Stars can virtually count themselves out of the four-out-of-seven-game playoffs if they drop their third straight tonight. That would mean they would have to win four straight from San Bernardino, and that simply cannot be done, critics maintain.

Over at Anaheim, Manager Clair (String) McDonnell pulled another surprise, starting himself instead of Lyle Morse in the box. While the six-foot seven veteran held Joe Rodgers' defending champions to one hit, Anaheim staged a clever hunting act to rattle Frank (Chico) Sabella, and then really turned on the heat with hard drives to the outfield.

HIGGINS RAPS TRIPLE

Anaheim's four runs came in the sixth. Fred Wiseman and Floyd Montgomery led off with perfect bunts. George Preble struck out. Randolph Bell bunted to load the bases. Wiseman staged a Leavitt Daley's long fly for the second out to left field. Mal Higgins blasted one to the scoreboard in left field for a triple, shoving across Anaheim's second and third runs. Higgins scored on "Benny" Wilcox's line single.

The third game of the four-out-of-seven series will be played at Huntington Beach Monday night.

Ever Optimistic

William Warren (Bill) Foote, optimistic coach of Santa Ana's Saints, believes they will finish in the upper division in this, their first football season in the Citrus Belt league with Chaffey, Riverside, San Bernardino, Redlands and Pomona. Foote calls out his preps for their first drill at Poly field next Tuesday.

SAINTS, DONS
DUE TUESDAYOceanside, 'Frisco
Stars Will Bolster
Jaycee Grid Champs

The colorful task of developing colorful football machines begins for Coaches W. W. (Bill) Foote and A. J. (Bill) Cook at Santa Ana High school and Junior college, respectively, next Tuesday.

Foote will mobilize his Saint preps at Poly field for a first work in preparation for the season's first practice game, with Whittier's Cardinals of the Football league, here Friday, Sept. 24.

Cook will conduct two daily drills in preparation for his Southern California champion Dons' opener with Pasadena Jaycee's free-lance champions here two weeks from tonight.

AN ex-San Francisco prep star, Bob Ganong, 207-pound center, will be among the new prospects enlisting with the Dons. Ed Sadel, 200-pound tackle and Ganong's companion, also will enroll. From Oceanside High school will come Les McLennan, plunging fullback, and Charles Stafford, end. Bill Huntale, Southern California prep under king who has run the 100-yard dash in 9.8 secs, also will be up from Oceanside.

Most attractive jaunt on the junior college's schedule will be a trip to Palo Alto to play the Stanford Frosh in a preliminary to the Santa Clara-Stanford game the afternoon of Sept. 25.

SANTA ANA HIGH SCHOOL
Sept. 24—Whittier at Santa Ana.

Bob Swanson Cops
50-Lap Feature

LOS ANGELES (P)—Bob Swanson returned to winning racing form last night, conquering a field of midget auto stars in the Gilmore speedway 50-lap main event.

From third place after the start, Swanson moved up a notch by passing Sam Hanks on the sixth lap, then challenged Lou Schneider for the lead. His time was 13 min. 34.85 secs.

Two-base hits—Shoemaker, Anderson, Collins, Pargoe. Double play—Walker to Styling to Walker. Struck out by Anderson, 2; by Hitt, 3. Bases on balls, off Anderson, 3; off Cox, 2; off Hitt, 1. Umpires—Lutz, Gibbs, Kintz.

BOB FELLER, Indians—Fanned 12 and beat Yankees 4-2 with five hits.

Cash Prize Contest on at All Alpha-Beta Orange County Markets in Santa Ana

By A. "WILL" GERRARD

This week I'd like to have you folks meet Russell Gundry, manager of our vegetable department at 318 West Fourth street. Russell has been with us in the Alpha Beta organization for the past six years and has been manager here for over a year. His hobby is softball, and he plays left field for the Commercial bank niteball team. Married, Russell, his wife and their small daughter live at 158 North Pixley over in Orange. Born in Lichtfield, Mich. in 1913, Russell came to California in 1918, and graduated from Santa Ana High school in 1931. Ever since then he has been connected with Alpha Beta.

Each individual Alpha Beta grocery department wishes to thank its friends for their support the fore part of this week in helping each one in their effort to win the \$100 prize to be awarded by the Alpha Beta company for the highest percentage increase in business over the last period average.

Due to the tremendous acceptance of our Pre-School Sale—some of you may not have had the opportunity to take advantage of this mammoth sale. So we are carrying all special prices until Tuesday night, Sept. 7th. **CLOSED ALL DAY MONDAY.**

Orange Co. Market has a new added feature to this immense super market, a complete line of school supplies now on display.

\$5,000 Insured

Surely you should enjoy the assurance that your deposits are secure. Federal Deposit Guarantee Insurance is government protection. There can be none more assuring! Open a savings account here, separate from a convenient checking account which we also offer.

BEGIN NEW DRIVE TO SETTLE IRVINE SUIT

UPPER RIVER GROUPS TAKE NEW ACTION

Special Meet Called to Speed Water Program

Upper county water interests moved quickly today in a new effort to bring about immediate settlement of the Irvine water spreading suit.

Francis Cuttle, president of the Water Conservation association, one of the defendants in the Irvine suit, has called a special meeting of his board of directors for Sept. 14 when efforts will be made to speed settlement of the suit, which has been pending now for more than four years.

REASONS FOR DELAY

Attorney H. C. Head, representing the Anaheim Union Water company and the Santa Ana River Development company, holding company for the Anaheim and Santa Ana Valley Irrigation company, outlined today reasons for delay in settlement of the suit.

Cuttle has been authorized by his board to sign the stipulated settlement, which already has been signed by James Irvine. The Orange County Water district directors, intervening in the suit, have authorized their officers to sign the agreement after the upper river interests have signed. When the local water district signs, Irvine will be let out of the settlement.

RESOLUTION NEEDED

Cuttle cannot sign the agreement until boards of supervisors of Riverside, San Bernardino and Orange county pass a resolution agreeing upon new terms for settlement. The original resolution adopted by the Riverside and San Bernardino boards, but the Orange county board desired certain changes, and a new resolution now must be adopted by the three boards.

Head told The Journal that in connection with the proposed stipulation final settling the suit will be held in abeyance for five years, during which time a board of three engineers appointed by parties to the suit will collect data

Third Party Threat

Third party possibilities were discussed at the second annual convention of the United Automobile Workers of America in Milwaukee, a C. I. O. union. Homer Martin, president of the U. A. W. A., above, stirred the 1000 delegates to heights of enthusiasm in his keynote speech and was carried on the shoulders of cheering delegates in a two-hour demonstration. The question of a third party was first voiced by John L. Lewis.

Half-Minute News Stories

(By Associated Press)

NO GOOD THERE

SPOKANE, Wash. — Bert Thompson, 46-year-old laborer, didn't feel well. He told emergency hospital attendants he couldn't sleep and couldn't eat. They said he should have an X-ray. The trouble—He swallowed his teeth, the whole lower denture.

LABOR FOR LABOR

PITTSBURGH—Workmen have torn down the new reviewing stand for the Labor Day parade. Today, other workmen will erect

and measurements on water flow in the Santa Ana river.

The resolution of the boards of supervisors will consider sets aside and cancels certain written agreements entered into years ago between the three counties and the Water Conservation association by which the association agreed not to spread water in the upper reaches of the river until water was flowing normally past the Chapman street bridge in Orange county.

The new agreement sets the measuring point at the Prado reservoir site instead of the Chapman street bridge, a point distinctly to the advantage of Orange county.

Water leaders here have hailed terms of the agreement as a signal victory for Orange county. It has been felt that the upper river interests have spread and sunk water which otherwise would have come down here to replenish the underground basin.

Resists Ban on Vegetable Stand

If there's a zoning ordinance that says she can't operate a vegetable stand, it was passed after she'd established the stand, Claudine Minter, Santa Ana boulevard and Flower street, charged in police court yesterday.

She pleaded not guilty to a charge of operating a vegetable stand at that address without a license and in violation of a new zoning ordinance, an dshe demanded a jury trial. She told Judge J. G. Mitchell she had applied for a license but it had been denied. The case was set for 10 a. m. Sept. 16.

YACHT CLUB AIDS SCOUT RENDEZVOUS

Boys of Four States Coming to Newport

Scout officials in charge of this year's Sea Scout Rendezvous, to be held during Thanksgiving vacation at Newport-Balboa, today were assured the full cooperation of the Newport Yacht club.

Sea Scouts from Region 12, which includes Arizona, Nevada, Utah and California, will participate in the Rendezvous. Saturday, Nov. 27, the scouts will spend an afternoon at sea as the guests of the yacht club.

REAL EXPERIENCE

They will all sail in from 25 to 30 sailing boats in which races will be held. Experience under actual conditions will be held for the boys during the week, it was announced. Approximately 100 boys from the Salt Lake City region alone will attend the Rendezvous, said Harrison E. White, in charge of arrangements. Many of the Salt Lake boys have never seen the ocean, he said.

GRAND BALL

The yacht club has consented to hold a grand ball for all able seamen and quartermasters. It also has under consideration the holding of a complimentary dinner for all officers and other leaders of the groups.

Shirley Meserve, vice commander of the club, made arrangements for the club's assistance, with the aid of C. L. Appling, chairman of the program committee.

PREDICTS CHINA TO WIN WAR

Japan may have ideas of conquering China, but she waited too long after her 1932 excursion, thereby pulling an "awful boner." The Japanese people don't like the present war, and Chinese courage probably will win.

These opinions were voiced yesterday afternoon by William L. Waters, Fullerton attorney and world traveler, before members of the Lions club here.

China is much better armed today than she was in 1932 when the Japanese first struck Shanghai, Waters said, and has a powerful ally in Russia, which may prove the deciding factor in the present war.

Chinese soldiers have infinitely more courage than the Japanese, Waters said. He said a Japanese machine-gun squad is helpless if its leader is shot, but a Chinese detachment will keep on fighting until the last man is down.

Waters was introduced by Franklin West, program chairman.

Cullens Sue Over Auto Accident

Asking \$6590 plus medical expenses and loss of earnings, Irene Cullen and Walter Cullen yesterday started suit in superior court against Paul C. Plante over an auto accident in Fullerton Aug. 21.

The Cullens charge Plante was negligent and caused the accident, which occurred at Santa Fe and Harvard avenues. Mrs. Cullen asks \$5000 general damages and \$800 for damages to the car, and Cullen asks \$1500 for his injuries.

FLOWER SHOW WILL BE ON SEPT. 11, 12

Committee Gives Tips To Those Entering

Orange county's second annual flower show, sponsored by associated garden clubs of the county, will be held this year Sept. 11 and 12 at the Valencia ballroom, on Highway 101 between Santa Ana and Anaheim.

Eyes of flower lovers from all over Southern California are focused on the event because of its tremendous success last year, and because an even greater display of flowers and fruits is expected to be on exhibit this year.

FLOWER TIPS

Stressing the fact that any grover of flowers, whether belonging to a club or not, may enter exhibits, the committee today released a list of information and last-minute hints to supplement the specification lists which may be obtained at The Journal office.

Suggestions follow:

"There is no fee for entering exhibits. Please see that your container is marked. A strip of adhesive tape, marked with your name, on the bottom of vase, bowl or basket, is an excellent method. See that the stems and foliage of your entry, especially of roses and dahlias, are clean and healthy."

DAHLIA TREATMENT

"Any flower or plant having a woody stem will keep better if the end of stem is slightly bruised or split. This is especially true of roses. Dahlias should have ends of stems burned, or plunged in boiling water, followed by a deep bath in cold water. 'Foliage' indicates the leaves of the flower or plant itself. 'Greenery' indicates any foliage or filler. Foliage is permitted unless otherwise mentioned."

"Follow instructions carefully as to requirements of color or number of blooms. If a number of blooms is specified, be sure to have that number, neither more nor less. If possible, know the correct name of your entry. While not necessary, this will be a help to the receiving committee."

"Receiving will be from 7 to 10:30, Saturday, Sept. 12, but entries which will keep over may be placed the day before."

G. O. P. FUTURE OUTLINED

The Republican party has a bright future—under its present name, without changing the title.

This opinion was expressed last night by Justus Craemer, Orange publisher, assistant state director of public works, and chairman of the Republican state central committee, in a radio interview.

Craemer spoke on the "Know Your State" program, sponsored by the California junior chamber of commerce and broadcast over the Mutual-Don Lee network.

Interviewed by Henry C. Clause, San Francisco attorney, Craemer said:

"We Republicans realize that the party needs new blood. The young people can do much to revitalize the party and we hope they will build for the future with the same courage as others did in the past."

What To Do . . . If Your Son Is Kidnaped

1. Telephone the Federal Bureau of Investigation either in Washington—National 7117—or at one of the 47 field offices.
2. Preserve all evidence.
3. Get as much information as possible from any telephone call the kidnapers may make.
4. Follow instructions of officials in charge of the investigation.

By the (P) Feature Service
The head G-man, J. Edgar Hoover, recommends this course of action.

The "kidnaping switchboard" at Washington is open 24 hours a day but Hoover urges you to try to compose yourself before calling so as to give essential information as completely, accurately and calmly as possible.

Be careful not to destroy fingerprints in handling ransom notes and other evidence. Try to check the source of the call if the kidnapers telephone.

The G-men's primary objective is to get your son back safely—capture of the kidnapers comes second. It is best to follow the

BABY WALKS WHEN SEVEN MONTHS OLD

Philip Coats Amazes Local Baby Experts

This year's crop of babies today might well coo and gurgle enviously at the infant who beat 'em all into the world.

For Philip Coats, son of Rev. and Mrs. Earl T. Coats of Santa Ana Gardens, has set a precedent for his Orange county cradle-mates that will be hard to equal.

He walks like a veteran and he's just turned eight months! Santa Ana baby experts are amazed.

Born last New Year's day—he was either the first or second 1937 baby in the county, although the record books are foggy on that technicality—Philip began standing up and toddling around a bit three weeks ago. He first walked at seven and one-half months and yesterday, as he prepared to come to town for his first haircut, he was getting around as though he'd been doing it for years.

"He started walking almost as soon as he'd learned to crawl," said Philip's mother to a Journal reporter.

Two of Philip's three sisters were slightly under-age when they started walking. The oldest, now six years of age, began at nine months and her five-year-old sister became a toddler at 10 months.

Treesweet Firm's Growth Shown

Indicative of the growth of the Treesweet Products company here, it was announced today by General Manager H. L. Manker that carload shipments of its products at times have reached as high as 50 to 75 per month.

The company, which started at the lowest point of the depression, cans citrus juice and manufactures by-products. Manker said 80 per cent of the employees reside in Santa Ana, many owning their own homes. Eighteen per cent live in orange county.

Newlywed Is Incentive Of Party

Hostess-Duo Receives Complimenting Mrs. Burley M. Durbin

Nine tables of bridge were in play last night when Mrs. Buhl Wing of Orange and Mrs. Urban J. Engelman of Santa Ana were co-hostesses at a delightful party at the lovely Heliotrope Drive home of the latter. Incentive for the affair was the recently announced marriage of Miss Edwina Maag and Burley M. Durbin.

Assisting the hostesses before and during the affair were Mrs. William H. Maag, mother of the honoree, and Miss Marilyn Maag and Miss Betty Mae Engelman. Bowls of colorful zinnias, asters and dahlias decorated the rooms where contract was played, with prizes going to Mrs. Andrew Kramer, Mrs. Nick Brock, and Miss Estelle Schlesinger. A late refreshment course was served at a table effectively decorated with pastiche umbrellas in the center and at each place, denoting the shower of gifts which followed.

Many beautiful gifts were presented Mrs. Durbin by the invited guests, who included the hostesses' three assistants, and the Mesdames Nick Brock, Hazel Maag, John Fouch, Howard Budlong, Charles Kramer, Andrew Kramer, Ethel Durbin, E. E. Christiansen, J. E. Follen, J. P. Murphy.

The Mesdames Clyde Ashen, Horace Snow, Ernest Winbigger, Peter Fluer, William Strain, Frank Chapman, Willard Swarthout, Raymond Marsile, Oscar Carothers, V. C. Croal, Emil Wetzel, John Maag, Helen Dilley, G. D. MacMullen, Walter Markel, Albert Banks, Leland Ostrander, Thomas Giesler, Herbert Harlow, Robert Horn, William Altmiller, J. A. Maag, Mary Griffith, Miss Estelle Schlesinger, Jerry and Dorine Haupt.

HOUSEWARMING SURPRISES HARBAUGHS

Mr. and Mrs. Cleland Harbaugh, who have recently moved into their new home near Orange, were surprised recently when fellow members of the Berean church of the Orange Avenue Christian church called to wish them well.

The group that called brought with them various dishes for a pot-luck supper that was enjoyed during the evening. Following an inspection of the new home, the party played various games.

Ralph Hillman, president of the Berean church, presented a pottery baking dish, gift of the assembled members, to Mr. and Mrs. Harbaugh.

Present for the housewarming party were Mr. and Mrs. Philip Gerrard, Mr. and Mrs. Ralph Carter, Mr. and Mrs. Curtis Browning, Mr. and Mrs. A. A. Verbesky, Mr. and Mrs. Ralph Hillman, Mr. and Mrs. Ted Corbin.

Mrs. Louise Aubrey, Mrs. Muriel Wilsey, Mrs. Lucille Knight, Miss Phyllis Gerrard, Miss Myrtis Gerrard, Miss Ruth Switzer, Miss Vivian Switzer, Robert Browning, Joy Verbesky, and Jimmy and Tommy Corbin.

POWERS ENTERTAIN AT STEAK BAKE

As host and hostess, Mr. and Mrs. C. H. Powers entertained a group of friends at a gay steak bake in the garden of their home at 614 South Birch street recently.

Bouquets of zinnias and marigolds centered the outdoor tables and brightly-colored pottery completed the gay setting.

Guests of the Powers were Mr. and Mrs. Dale Clark and Mr. and Mrs. Otto Smitkey of Green, Iowa; Mrs. Clara Springer and daughter Marguerite and Mrs. Douglas Ford of Monrovia; Mr. and Mrs. Cecil Yates and sons Ronald and Claude of San Bernardino.

P-T. A. COUNCIL TO HAVE BOARD MEETING

Santa Ana council executive board of the P-T. A. will meet Tuesday morning at 9:30 o'clock to launch activity plans for the year.

The annual membership drive will be outlined and magazine and program chairmen are to outline their work.

GE GLADE DAMER

De Glade Damer will meet Tuesday afternoon at 2 o'clock with Mrs. Wayne Tibbs at Orange Park Acres. Any member wishing transportation may call Mrs. Herbert Thwaite, 3663-W.

OVER

The Journal Station KVOE

Flannel Culottes

Lightweight wool flannel in pearl gray makes a pair of culottes that is very practical for active sportswear. Cut unusually full for grace in action they provide the modesty of a skirt with the comfort of trousers. The boat-necked sweater is of soft pink angora wool.

BAPTIST WOMEN LAUNCH YEAR'S WORK

Fall activities of the Woman's Society of the First Baptist church were officially launched Wednesday afternoon, when the executive board met in Miss Gertrude Minor's lovely garden at 207 West 19th street, with Miss Lula Minter and Miss Grace Roberts as assisting hostesses.

After prayer by Mrs. M. M. Holmes, the hostesses served a dainty luncheon. Several guests were present, among whom were Mrs. L. C. Fairbanks, state president of the Woman's Baptist Mission Society; Mrs. W. A. Atkinson, Santa Ana Valley association president; Mrs. H. T. Phelps, local director of young people's work; and Miss Gracia Fredrick, church secretary and visitor.

Following the luncheon, the new president, Mrs. Russell Crouse, took charge of a business session.

A number of interesting plans for coming events were revealed. Mrs. Benjamin Brubaker, student counselor, announced that the Sunday evening service on Sept. 12 will be conducted by the young people, this service to be followed by a farewell party for our young people who are going away to college.

September 14 and 15 were announced as the dates for the Woman's house party which is held each year at Pacific Palisades.

It was also announced that Mr. and Mrs. Morris Forbes, who have been in this country on furlough for the past year, will leave for their mission station at Jorhat, Assam, Monday. They sail from Wilmington on the S. S. President Hayes.

Mrs. Kenneth King, courtesy chairman, told the ladies to reserve the evening of Oct. 1 for the annual All-Church social.

Another event of much interest is the coming negro Baptist national convention which will meet with the Second Baptist church (negro) of Los Angeles Sept. 8-12. Mrs. Fairbanks, state president of women's work, will be one of the speakers Sept. 8.

Board members present besides the hostesses, included the Mesdames M. W. Holmes, W. G. Dietrich, C. W. Nash, Eugene Severance, A. M. Robinson, C. A. Harp, R. E. McBurney, William Lockett, L. R. Stearns, C. W. Brakeman, George Lippincott, E. A. Bell, E. L. Morris, John Swanke, Kenneth King, R. P. Meares, John J. Vernon, Harry S. Harlow, W. F. Miller, Benjamin Brubaker, R. E. Coulter, P. G. Kilburn, Albert Hill, John P. Williams, and Miss Ida Noy.

CHURCH WOMEN MEET AGAIN

Convening for the first time since summer recess, the women's auxiliary of the Episcopal Church of the Messiah met this week at the parish hall, with Miss Minnie Besser presiding.

Announcement was made of the district auxiliary meeting to be held here Oct. 27, and plans were launched for the fall festival of the group, to be held this year at Ebell club Nov. 17.

The afternoon was spent in piecing a quilt, and Mrs. E. F. Matthews, hostess for the day, served refreshments to the Mesdames S. P. Freeman, Frank Wendell, Kenneth Dawson, John Crawford, J. D. McCracken, C. Bonebrake, George Perkins, James L. Allen, Preston Turner, E. F. Museum, James Farrage, Adelaide Lowe, A. H. T. Taylor, William Wollaston, Marshall Harnois, C. S. Dunphy, A. Hart, and Glenn S. Warner.

TO MEET THURSDAY
The Unitarian Women's Alliance will meet Thursday, Sept. 9, in the home of Mrs. Herbert Birt, 2210 Maple street, for an all-day session, with a pot-luck luncheon at noon.

RETURNS FROM TRIP TO EUROPE

Miss Nell Marie Remsburg of 1717 Bush street and Miss Mildred Mansur, former Santa Ana, have returned from an unusual European trip, landing in New York Aug. 27.

They took a five weeks' cruise on the S. S. Reliance to the "Northern Wonderland," visiting Iceland, Spitzbergen, Norway, and Sweden. They spent a week in "the land of the midnight sun" and climbed North Cape, the northernmost point of Norway. They stopped along the coast of the latter country and saw its capital, Oslo.

An interesting trip was one to the medieval city of Bisby on Gotland island near Sweden, and another was a visit in Stockholm. They were in Leningrad, Russia, for four days, and 17 of the passengers from their steamer were not allowed to land for reasons unknown. Newspapers all over the world featured the affair, Miss Remsburg said.

After leaving Russia they visited Finland, Estonia and the free city of Danzig. Two weeks were spent at beautiful Scodsborg near Copenhagen for relaxation before returning to the United States.

Miss Mansur remained in Virginia to visit relatives. Miss Remsburg will resume teaching in Pasadena next week.

ST. JOSEPH'S ALTAR SOCIETY TO RESUME

As is her hospitable custom each year, Mrs. Carl Klatt will once again open her Newport Beach summer home to members of St. Joseph's Altar society for their first meeting of the current year.

The affair will be held next Thursday, Sept. 9, and will start with a luncheon at 12:30. Mrs. Clyde Ashen is general chairman, and on her committee are Mrs. Chester Dietler, Mrs. Bernard Moreland, Mrs. Bert McCollum and Mrs. Madril. Others assisting will be Miss Ella Mae Bevere and Mrs. Elizabeth Knight. For transportation, call Mrs. Ashen at 4377-J, or Mrs. Dietler at 1590-J. It was announced.

Mrs. Frank F. Mead, president, will be in charge of the business session, and members are asked to bring their own table service.

ANNIVERSARY IS CELEBRATED

Miss Jean Thwaite's 16th birthday anniversary was a gay and intimate affair, with three of her school chums sharing its happiness with her.

Her mother, Mrs. Herbert Thwaite, served a dainty supper to the girls at a table prettily decorated in pink and white linens with matching favors and pastel-shaded asters in the center. Later Miss Thwaite, Miss Delberta Morrison, Miss Audrey Van Beak, and Miss Ruth Mary Murphy went to the theater.

GIRL SCOUTS ENJOY SUPPER

Miss Janice Campbell was hostess this week at the home of her parents, Mr. and Mrs. J. D. Campbell of Tustin, to fellow members of Girl Scout troop No. 1 of Tustin.

Enjoying an informal wiener bake were the Mesdames Laurie Adams, Betty Berg, Iva Marie Fuller, Barbara Young, Estelle Jean Hoover, Doris Hoover, Betty Householder, Eloise Jacobs, Betty Balzer, Marjorie Carsons, Elaine Prunty, Virginia Finley, and the hostess.

Ebell Group Launches Year

The first section meeting of Ebell for the new year was held by its Third Household Economics group, with the officers entertaining the other members at a delicious luncheon at the clubhouse.

Tables were set in the lovely little patio with its growing flowers and tiled fountain, and outstanding decoration was a beautiful bouquet of pink dahlias in a black bowl, given by last year's president, Mrs. F. T. Preble. Birthday presents of flowers were given to the five members who had celebrated anniversaries during the summer. Mrs. Preble, Mrs. W. B. Risk, Mrs. R. C. Williams, Mrs. W. E. Williams and Mrs. Charles Seaman.

Mrs. E. L. Morrison, new leader, and Mrs. R. G. Sutton, new secretary, were in charge of the meeting, and Mrs. E. H. Prynne was named reporter. The former is a mining engineer, and Mrs. Leake is a cousin of the West family.

Others present at yesterday's affair were the Mesdames F. L. Andrews, C. F. Bennett, A. M. Cox, D. F. Cook, A. G. Finley, B. B. Kellogg, W. L. Leiby, W. B. Risk, W. S. Rose and R. G. Sutton.

MRS. HILL IS HOSTESS AT TEA PARTY

An enjoyable family gathering was that at which Mrs. Marguerite West Hill was hostess this week complimenting Mr. and Mrs. Dana Leake, home in Ontario from Kona, Hawaii. The former is a mining engineer, and Mrs. Leake is a cousin of the West family.

Assisting Mrs. Hill in serving afternoon tea were her sister, Mrs. Victor Langford of Pasadena, Miss Ada Ethel Leake, and Winston Hill, her son.

Many old friends of Mrs. Leake dropped in early in the afternoon, and later in the day came members of the family to greet their cousin. Interesting points of the conversation other than the experiences of the Leakes were plans of Miss Leake, their daughter, who is taking a graduate course at Pomona, and those of Victor Langford, jr., who leaves soon for a graduate course at the University of Virginia.

Among the relatives present were Mr. and Mrs. Franklin West and little Mary, Mr. and Mrs. Edmund West, and Edmund, jr., Mr. Victor Langford and Victor, jr., Mrs. M. A. Yarnell and Mr. and Mrs. Terry Stephenson.

PINOCHLE CLUB GATHERS AT CORONA DEL MAR

For their fortnightly meeting, members of the F. S. C. C. Pinochle club gathered in the Corona del Mar home of Mr. and Mrs. Clarence Eldridge Wednesday night.

Honors for the evening's play went to Mrs. Elmer Ellingson and George Randall. A spaghetti supper served to the guests at small flower-decorated tables. Plans for the next meeting to be held in the Duane Berg home on Sept. 15 were made.

Members present were Mr. and Mrs. Eldridge, Mr. and Mrs. Elmer Ellingson of Costa Mesa, Mr. and Mrs. Jack V. Williams of Fullerton, Mr. and Mrs. Ernest Kastroff of San Juan Capistrano, Mr. and Mrs. Duane Berg and Mr. and Mrs. George Randall of Santa Ana.

SIX VISITORS FETED AT PICNIC-REUNION

The arrival of a group of relatives from the East was incentive for a delightful picnic and evening of reminiscences held in Irvine park last evening, by local people.

Mr. and Mrs. Frank Carden of Harlingen, Texas, Mr. and Mrs. Ray Carden and Mr. and Mrs. Carl Carden of Mansfield, Iowa, visiting here for some time, on a tour of the Pacific coast, were the guests of honor at last night's informal reunion.

Other present for the party were Mr. and Mrs. L. J. Carden; Mr. and Mrs. L. L. Carden and children Lester, Jr., Billy, and Dorothy; Mr. and Mrs. J. S. Hill and children Billy, Betty and Marjorie; Herbert Hill and son Herbert, jr.; Mr. and Mrs. Robert E. Hood, Mrs. Effie Crawford, and Mr. and Mrs. Chester Baxter.

QUICKS PLAN WEEK-END PARTY

Mr. and Mrs. Leroy Quick, 2464 Heliotrope drive, will entertain a houseparty at their Camp Baldy cabin over the holiday week-end. The principal amusements will be swimming and hiking.

Mr. and Mrs. Raymond Caldwell, lately returned from Sydney, Australia, Mr. and Mrs. Miles Wagner of Los Angeles, and Miss Henry Culp of Santa Barbara will be their guests.

TWO VISIT IN JELLIS HOME

Mr. and Mrs. D. M. Jellis of 1209 West Highland street, are entertaining as house guests in their home this week two relatives from the East.

Eugene McKichan and Harry Barthelman, both of Bonilla, S. D., the visitors here, are planning an indefinite stay.

HARMONY TUESDAY
Harmony Bridge club will meet Tuesday at 12:30 p. m. for a garden luncheon at the home of Mrs. Juanita Cozad, 1413 South Garnsey. Members are to bring a covered dish.

Quartet Is Feted At Dinner

Members of the American Legion quartet, which won first place in statewide competition at Stockton this summer, were complimented last night when they were entertained at a 6:30 p. m. dinner in Veterans hall.

Miss Ruth Armstrong, director of the group, as well as Mrs. Andrew Lykke, Mrs. Grant Kyle, Mrs. Charles Van Wyk and Mrs. Zola Maag was honored at the banquet. The dinner was served by Hunter Leach.

Baby June LaVerne, radio singer and soloist with the Long Beach Municipal band, sang three numbers accompanied by her father, Mrs. John Cleary, new president of the 21st district from the Tustin unit, talked on national defense and presented the silver loving cup to the quartet. Mrs. Marian Matthews spoke on convention activities.

Plans for the jam and jelly drive to be sponsored by the Auxiliary on Sept. 17 and 18 for the benefit of the veterans hospitals were completed. Mrs. Roy Gowdy and Mrs. Evelyn Imhoff, co-chairmen, asked members to bring their donations to the hall or telephone for someone to call.

A complete list of committee chairmen to serve during the winter term were announced to include:

Mrs. Mabel Gowdy, rehabilitation; Mrs. Harriet Mitchell, child welfare; Mrs. Grace Lepper, community service; Mrs. Blanche Roepke, Americanism; Mrs. Frances Jones, membership; Mrs. Zola Maag, national defense; Mrs. Anne Scudder, legislation; Mrs. Myrtle Swarthout, education.

Mrs. Edith Schaniel, disaster relief; Mrs. Fannie Reeves, cards and flowers; Mrs. LaVerne Van Wyk, quartet; Mrs. Geneva Welch, drill team; Mrs. Anne Scudder, house; Mrs. Sue Featherly, decorations; Mrs. Gladys Liebermann, tables; Mrs. Mabel Gowdy, kitchen; Mrs. Tona Sandon, hospitality; Mrs. Marian Matthews, keyhole; and Mrs. Fay Minnix, parliamentary.

RECENT BRIDE HONORED AT SHOWER

Mrs. Jess Maret, who was Norma Buck until her marriage Aug. 24, was a complete limo on Wednesday night when Mrs. A. M. Blanding entertained at a post-nuptial shower in her home, 1473 Orange avenue.

An all white and silver theme was carried out as a setting for the party. The basket of gifts presented to the recent bride was decorated with a tiny bride and groom and wedding bells.

Prizes at cards were won by Mrs. Arno Finster, Mrs. Curtis Burrow, and Mrs. Jim Pederson. Refreshments were served at the small tables centered with bridal corsages of white flowers and nut cups made by Mrs. John Maret, mother-in-law of the honor guest.

Guests of Mrs. Blanding bidden to compliment the new Mrs. Maret were Mrs. Harold Bracewell, Mrs. Joe Hazen, Mrs. Jim Pederson, Mrs. George Lackey of Escondido, Mrs. Curtis Burrow, Mrs. A. P. Koontopp, Mrs. Arno Finster, Mrs. Donald Kyle and her house guest, Miss Bartlett of Canada.

Others were Mrs. Alfred Appling, Mrs. Coy Maret, Mrs. Lela Mangan, Mrs. Gladys Welch and Miss Ruby Welch of Orange, Mrs. Burton Rowley, Mrs. Elvin Gammel, Mrs. J. Sutherland, Mrs. William Jones, Mrs. Earl Wyman, Mrs. John Maret, and Mrs. Sherman Buck.

LUNCHEON IS WELCOME HOME TO MRS. BURKE

A welcome home party greeted Mrs. J. Frank Burke when she attended the luncheon and bridge party given by her sister-in-law, Mrs. W. Maxwell Burke, in her home, 1461 Orange avenue, yesterday afternoon for their customary eightieth.

Over the two small luncheon tables, details of the recent round-the-world trip of Mr. and Mrs. J. Frank Burke were told. Contract was played during the afternoon; at the close of the play Mrs. J. E. Gowen was awarded high prize.

Members of the club present were Mrs. Gowen, Mrs. J. F. Burke, Mrs. C. N. Rowland, Mrs. E. E. Keech, and Mrs. E. M. Nealey. Others who substituted were Mrs. S. M. Davis, Mrs. A. M. Gardner, and Mrs. J. E. Smart.

VISITS IN LONG BEACH

Mrs. C. F. Skirvin, 925 Oak street, and her little granddaughter, Eleanor Jules Skirvin, visited yesterday in Long Beach with Mrs. Skirvin's sister, Mrs. Jack Farber.

THE FRIDAY AFTERNOON

Here and There With Southern California Artists

By DONALD BUTTON

Swift salute to Fall!

For in the coming weeks there's so much on schedule one almost needs an engagement book to guarantee attendance upon the many, varied attractions of the season!

First in line, (and important to more people than you'd suspect) is the annual Orange County Flower show at Valencia ballroom next week-end (Aug. 11 and 12).

Projects for club competition, Mrs. J. T. Wilson tells me, will be the creation of still-life pictures and window boy groupings along the north wall of the transformed horticultural hall.

Substantial prizes are offered, and further spur to competition is noted in the awarding of a sweepstakes cup to the club whose members take points in any and all classes.

Considerable interest in arrangements had been noted in last year's show. This accentuated by the Cronenwett's evening classes at Willard through the past year, has made it necessary to double the space given over to this ever increasingly popular hobby.

I'm looking forward to seeing what the star-performers of that evening class will have to offer.

Those who would like the program of competition to procure same at The Journal office, And even though you aren't taking an arrangement, you'll be there next Saturday, won't you?

And if your thoughts turn southward for this great Labor day week-end now in hand— Speed down to San Diego and take part in the first annual fiesta of the Spanish Village in Balboa park!

San Diego's Art Guild (Sherman Trease is the president) has, as you know, for some time sponsored the otherwise dismantled Spanish Village. I tis to that Guild's credit that it has made an ex-amenue center into a living gallery.

How appropriate to mark the harvest return in festival! There will be several exhibitions, among them "The California Group" in the Fine Arts Gallery, Wendell Hastings "Goyescapes" is being presented under Elizabeth Sowersby's direction each evening of the Fiesta in the patio of headquarters.

Naturally, a queen will be chosen, and her portrait is being painted by Dayton Brown.

And there'll be dancing and singing in constant procession through the streets of the village. This, too, is on my recommended list!

I'm just as eager to mark the season by another visit to Padua Hills!

Begun this week is the Padua Players' "Mexico, mia terra," a brilliant revue of the costumes, the customs and the dances of many provinces that make Mexico.

It is a splendid introduction to the study of Spanish, or a visit to Mexico... a synthesis of what you've seen, if you've already been. Some time ago Hilda Ramirez hinted to me one dance "routine" would take 12 minutes. It's worth my money to see her keep going all that time. I'm thinking.

On your visit to the olive grove in the starlight, you can also see Marian Kavanaugh Wachtel and Orin White's oils of Mexico.

San Francisco Visitor Is Honored

Mrs. Paul Dinsmore yesterday extended the hospitality of her pretty ranch home on the Irvine complementing that popular Bay city visitor, Mrs. Charles Mortimer Plum II, who is a house guest at the home of her son, C. Mortimer Plum III.

The hostess served a novel Hawaiian luncheon, with the menu composed entirely of island foods she had learned of during her frequent trips there. Gay red and yellow flowers and paper leis over each chair made an attractive and colorful setting for the little group.

At contract later, lovely crystal salad bowl sets were awarded Mrs. H. T. Dunning and Mrs. Emrys D. White, holders of high score.

Guests of Mrs. Dinsmore were Mrs. Charles M. Plum, Mrs. C. Mortimer Plum, Mrs. I. F. Landis, Mrs. Dixon Tubbs, Mrs. Lloyd Chenoweth, Mrs. H. T. Dunning, and Mrs. Emrys D. White.

LEAVES FOR SCHOOL

Mary Louise Lyons of Laguna Beach left this week for Berkeley, where she will attend the university. Her brother, James, went to New York, where he will matriculate at Columbia university. They are the children of Mrs. Mary Lyons, and Mrs. Robert E. Smith of 2421 Heliotrope drive, until Sept. 21, when she will re-enter Redlands university as a senior.

KILOCYCLING

with FRANK ORR—The Journal's Radio Reporter

LES MISERABLES

The seventh episode of Mutual's "projection" radio show, "Les Miserables," will broadcast further developments in Victor Hugo's historic novel this evening at 5:30, from KVOE.

Orson Welles, starred in the role of "Jean Valjean," is also the producer, narrator and writer of the radio adaptation.

THRILLS, MYSTERIES

If you like thrills and mysteries, you'll find them aplenty in tonight's episode of "The Cub Reporter" on KVOE at 7. Larry and Connie are locked in an air-tight room, ominously air-tight!

REVENGE PLOT

A young boy, setting out to avenge the murder of his father, found himself pitted on one side against a giant, ruthless murderer, and on the other side by three dangerous horse thieves.

How the "Lone Ranger" came to his aid with a clever plan that brought the two sides together into a feud will be learned in the current episode of the exciting series on KVOE and the nationwide Mutual network tonight at 7:30.

JUNGLE RHYTHM

The distinctive jungle rhythms of "Estani Coni" highlight the weekly feature, "Presenting David Broekman," to be heard on KVOE tonight from 8 to 8:30.

TWO RACES

The running of both the Bay Shore handicap and the Stoney Brook Stakes from the Aqueduct race track will be described for sports fans by Bryan Field, Mutual commentator, his hoof-report to be heard on KVOE and the nationwide Mutual network tomorrow afternoon between 12:15 and 1 o'clock.

Radio Time-Table

LEGION WILL MARCH AGAIN IN NEW YORK

500,000 Expected For Huge Convention

NEW YORK (AP)—The big town started getting bigger today as a vanguard of American World war veterans began a march back to New York.

They were the first delegates to the American Legion convention—the first of 500,000 men and women, Legionnaires and their families who are expected to attend the festivities starting officially Sept. 20 and lasting five days.

The hotels already have posted the little cards which say, in effect: "It's no use; we're filled for that week."

The housing committee will utilize ships in the harbor, Pullman cars in railroad yards, and 30,000 rooms in private homes.

Harry W. Colmery, national commander of the Legion, is exuberant over the convention outlook. "This will be the biggest convention the Legion has had," he said—and added, a bit quietly, "or ever will have."

SOCIAL DISEASE ATTACK TOLD

(This is the first of a series of five articles prepared by the state department of public health as part of a nation-wide effort to stamp out the menace of syphilis. Another will follow.—Editor.)

"Lepor at Large in Washington." Do you remember when this headline of 19 years ago excited a great hue and cry among citizens of the capital? News of the incident was relayed to all parts of the country. Just one leper loose in the city caused men and women to guard their steps, keep their children off the streets and become panic-stricken.

Yet a far more dangerous plague threatens national health and you have heard but little about it until recently. Syphilis is its name although it masquerades under many aliases. Here is a ruthless disease that is no respecter of age, wealth, class or creed. Its army of victims includes rich and poor, white and colored, young and old.

"GREATEST KILLER"
Ossler, wisest physician of modern times, called syphilis "the great killer among diseases," and most of our health officers agree with that description. Other authorities have called it "the great imitator" because of its ability to attack virtually every organ of the body, and its habit of masquerading as heart disease, insanity, blindness and many other afflictions.

But before going further with this ominous story it may be well to mention some of its brighter aspects. Syphilis is preventable and it is curable. Thousands of infections were prevented by the prophylaxis program of the U. S. army back in 1918 and 1919. Other thousands are being cured currently through prompt and continued medical treatment administered by good doctors in their offices and in clinics. So the picture is by no means hopeless even though far worse than it should be.

CURE POSSIBLE
Laboratory tests of the blood usually will detect the presence of syphilis. Physicians have available the medicine to provide a cure. "Why, then," you may ask, "has this plague been allowed to become so widespread from year to year until now it is said that 'syphilization' threatens civilization?" The answer is simple. In fact it is covered in three words—prudence, fear and ignorance. Down through the ages mankind has assumed an attitude of false modesty in dealing with problems which may be related in any way to the sexual origin, the disease has long been subject to this age-old taboo. Such other hazards as tuberculosis, heart disease, cancer and the like are discussed openly and fought openly, but this greatest menace too often has been considered as a problem of morals rather than a specific public health problem. People have been afraid or ashamed to talk about it; this despite the fact that thousands of so-called "innocent" and accidental infections occur annually.

NEED INFORMATION
It is high time for intelligent progressive members of the public to take a sane view of the situation, not only in the interest of the present army of victims, but to protect their own health and that of their loved ones. In order to do this the public must have accurate information regarding this disease, where it originated, how it is caught, how it may be prevented and cured, where and how treatment can be obtained, how it affects the individual and the community and what a tremendous toll it exacts from society in terms of human suffering.

The public should realize, too, the huge financial wastage involved in lost wages, medical institutional care at hospitals, treatment, disabled workers and asylums and other havens where society sends its unfortunates.

Further articles in this series will deal with these various aspects of public health's leading enemy.

Fraternal Day—Oct. 9—is celebrated as a legal holiday in Alabama.

DEFICIT FOR U. S. MAY BE LOWERED

Economies, Revenue Jump May Thin Red Ink

WASHINGTON. (AP)—Treasury officials expressed confidence today this fiscal year's deficit will be under the predicted \$410,000,000 despite a \$357,923,000 red ink balance for the first two months.

They said the July-August deficit would be offset by economies and increased repayments of federal loans during the remainder of the year ending next June 30. Reports showed outlay was \$249,000,000 greater than income in July and \$108,539,000 higher in August, with the last two days unreported.

This total was \$31,000,000 more than the deficit for the first two months' operation of the government in the last fiscal year. The July deficit was \$128,000,000 more than for July, 1936, while that for August was \$95,000,000 under the figure for the same month last year.

The estimate of a \$410,000,000 deficit for this year was made by President Roosevelt last April.

Officials who predicted it will be held under this figure pointed to a 34 per cent increase in revenue for July and August, compared to the same months last year, and said relief and recovery expenditures had been cut sharply.

Through this increase in revenue the ratio of collections to expenditures was higher despite the larger deficit.

WEEK HONORS NEWSPAPERS

SACRAMENTO. (AP)—Newspaper publishers have borne with honor the responsibilities of expressing public opinion in the local community, state and nation, Governor Merriam said today in proclaiming the seven-day period beginning Oct. 4 as newspaper week.

The proclamation says: "In recognition of the faithful performance of their duty to the public they serve, I, Frank F. Merriam, governor of California, do hereby proclaim the period beginning with the fourth day of October, one thousand nine hundred thirty-seven, as 'newspaper week' within the limits of this community, and urge all of our people to give consideration to the unswerving service given California by her newspapers."

MEXICANS JAIL RADIO HEAD

LOS ANGELES. (AP)—Milt Samuel, National Broadcasting company press representative at San Francisco, informed NBC officers here that Mexican, Baja Cal, Mexico, military police arrested Bob Hall, radio editor of the San Francisco Call-Bulletin, and held him incommunicado for four hours this morning for photographing a policeman asleep in a chair. Samuel said he and Clarence Myers, San Francisco publicity man, obtained Hall's release to the American consul.

Hall's camera and film were confiscated, however, and he was warned against any photographing derogatory to Mexico, Samuel said.

Cows Face Job On Ohio's Pastures

COLUMBUS, O. (AP)—On the average Ohio pasture a cow would have to take 180 bites of grass a minute for 12 hours in order to keep its milk production up to scratch, says D. R. Dodd, agronomist at Ohio State university. If a cow is to produce 25 to 35 pounds of milk, it must consume 200 pounds of grass to get the necessary amount of digestible proteins and nutrients, he figures. The average pasture has only about 1200 pounds of grass an acre available at one time, so the cow would have to harvest one-sixth of an acre daily. And that calls for 180 bites a minute for 12 hours. Dodd suggests improving the pasture.

Railroad Cat Knows Schedules

ROCK ISLAND, ILL. (AP)—She is a railroad cat and knows her schedules.

She gave birth to four kittens on top of a box car axle housing where no one could reach them. Then she heard trainmen say they would have to move the car in two days. When the field was clear, she began moving her youngsters, one by one, down the side of the car and into a secluded corner of the repair shop. Cat, kittens and car moved on schedule.

Joint Dinner Fetes Pair

COSTA MESA.—Mrs. Minnie V. Reid and aunt, Mrs. Tella C. Harris, the latter of East Hollywood, were entertained at a joint birthday dinner given at the home of Mrs. Celia Picklesner in Anaheim recently. Honored were Mrs. Reid's mother, Mrs. Verona H. Preston, who celebrated her 80th anniversary, and Mrs. Reid's son, Paul G. Reid.

WILD LIFE ACT GIVES AID TO STATE

Restoration Plan Is Approved by FDR

WASHINGTON. (AP)—The wild-life restoration act, signed today by President Roosevelt, authorizes an annual distribution of some \$2,760,000 to the states that agree to cooperate.

Each state is required to adopt assenting legislation, but any governor, until after adjournment of the next regular legislative session, may give his state's assent by executive order.

The measure does not levy new taxes, but provides for distribution of existing taxes on sportsmen's equipment to the various states on the basis of area and number of hunting licenses sold. States and federal government, through the secretary of agriculture, are to cooperate in using the money for wildlife conservation projects.

No state may receive more than \$150,000 a year under the act, and a minimum of \$15,000 is provided for any state that will set aside \$5000 for the work. The states are to set aside, with these maximum and minimum exceptions, one-third as much in state funds as they receive from the federal government.

Estimated federal contributions to California, before applying the maximum and minimum rules, figured on the basis of \$3,000,000 taxes with an 8 per cent deduction for administration, was reported as \$115,934.

Man Weighs Less On High Building

NEW YORK.—(American Wire)—A 200-pound man weighed only 199.8 pounds at the top of the Empire State building, according to Dr. Maurice Ewing, professor of physics at Lehigh university. He has just concluded a series of tests to determine how much the force of gravity changes in relation to the height above the surface of the earth.

'Bluebloods' from Local Kennels

FIND DIARY OF EXPLORER ON ISLAND

TROMOSE, Norway. (AP)—The Norwegian ice ship Gudrun returned today from the Arctic with a tiny receptacle in which, the captain said, was a "diary" of the Swedish explorer Salomon August Andree, who was lost on an attempt to reach the north pole by balloon 40 years ago.

The copper and cork container was found on a small island near Spitzbergen by a fisherman. The Gudrun's master declined to disclose what the contents stated, but he said the "diary" was in good condition.

He surmised Andree had dropped the container while passing over the island. Andree's body and those of his two companions, Nils Strindberg and Knut Fraenkel, were found—preserved by the cold—on White island in 1930 by a Norwegian expedition headed by Dr. S. Gunner Horn.

The Collie puppies shown above are owned by Mrs. John Gowdy, Fruit and Mabury streets, Santa Ana. Mrs. Gowdy is grooming a fine dog, Gowdy's Gladiator, for the Santa Ana all breed show to be held in the National guard armory building, Oct. 16 and 17. Gladiator is a descendant of Champion Sigurdson of the Sunnybank kennels of Terhune fame.

The dog show is the third to be held in Santa Ana. Last year there were 275 dogs entered. It is staged by the Santa Ana Kennel club and all net profits will go for welfare work of the American Legion auxiliary.

Officers are Mrs. Charles Lemer, president; Mrs. Alfred Jones, vice president; Mrs. Earl Lepper, treasurer; Mrs. Andrew Lykke, secretary, and Mrs. Arthur Eklund, bench show chairman. Jack Bradshaw of Los Angeles, has been engaged again to superintend. Entry blanks for the show will soon be available. Dogs do not have to be registered to be entered but must be pure-bred. For information about the show, phone Mrs. Eklund, 547-J.

ASK STORES TO ASSIST NUT GROWERS

A drive to help Orange county and other Pacific coast walnut growers market their bumper crops of walnuts was launched today by the Pacific Coast Walnut Growers Marketing committee.

Walnut growers are producing the greatest crop in history—and don't know exactly what they're going to do with it. The harvest in California, Oregon and Washington is expected to exceed the previous high by 11,900,000 pounds and even with quotas set by the Walnut Control board there will be offered for sale some 13,500,000 pounds more than last year's consumption.

In view of this problem, the marketing committee has sent an urgent appeal to the National Association of Food Chains, the California Chain Store association, the Independent Food Distributors council and other food distributors on behalf of the 12,000 walnut growers on the coast.

The committee asked that distributors "exert unusual efforts by inaugurating sales campaigns on unshelled walnuts during the coming fall, winter and spring for the express purpose of relieving walnut growers of threatened heavy financial losses." Aid has been pledged by some of the selling agencies, and others are expected to help.

The committee for Southern California includes E. T. Watson of Anaheim, Charles Van Wyk of Santa Ana, and A. H. Allen of Santa Ana.

Wanted: Fish Poles By Belgian Congo

WASHINGTON. (AP)—From all over the world come inquiries to the department of commerce for the purchase of American-made goods.

The Belgian Congo is interested in fishing poles, reels and lines for deep sea fishing; American-bred Angora goats are wanted in Colombia; bathroom scales are inquired from Czechoslovakia.

Many Swimming Pools Planned For Londoners

LONDON (American Wire)—Five new open-air swimming pools complete with sunbathing terraces and cafes will be erected soon by the London county council at an estimated cost of 150,000 pounds. Herbert Morrison of the council parks committee has explained the new pools will be so situated that no Londoner will be living more than a mile and a half from one pool or another.

A pool after which the five will be modeled has already been constructed at Victoria park.

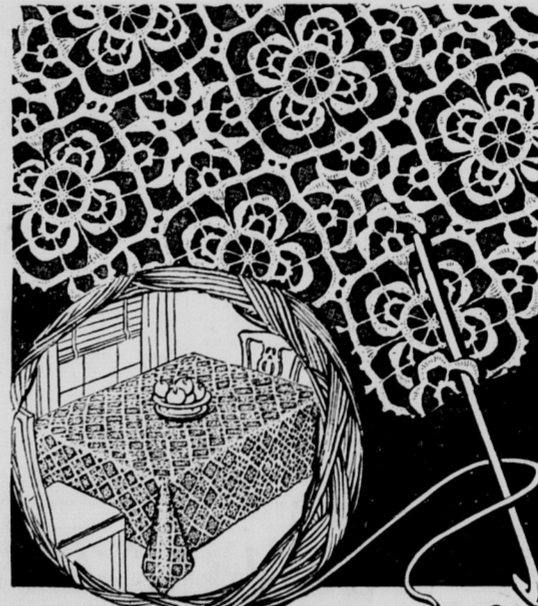

Device Slowing Cars Invented

MINNEAPOLIS, Minn. (American Wire)—Federal highway officers are interested in a new device which regulates the speed of automobiles. The car can be locked at any of three maximum speeds—30, 45 and 60 miles an hour and it won't go beyond that speed until it is unlocked. It will be considered a great boon to parents who give the family car to the younger generation. The device is distributed from Minneapolis.

Services to Old Music Recognized

LONDON (American Wire)—The civil list pensions for the year ending last March 31 have been issued and total only 1200 pounds. Probably the strangest grant was that of 110 pounds to Eugene Arnold Dolmetsch in recognition of his services to music, especially to English instrumental music of the 16th and 17th centuries.

Rich-Looking Far Beyond Its Price

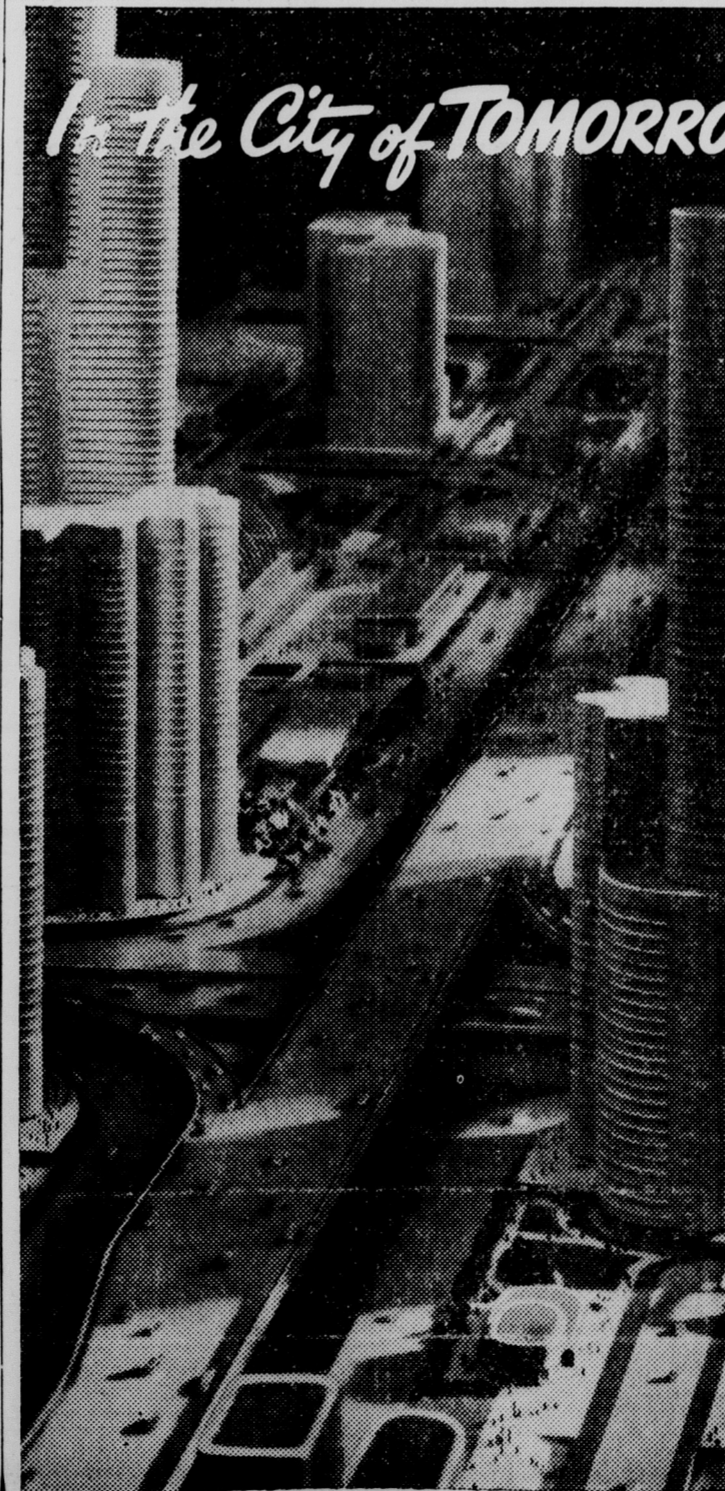

Household Arts by Alice Brooks

Single Square Motif and Some String Make Heirloom Lace

PATTERN 5845

If you'd love to own a genuine-looking "heirloom" lace cloth, spread or scarf, look no farther than this easy-to-crochet pattern. It gives you your dream in surprisingly short time. Rich-looking far beyond its price, it's crocheted of commonplace string. Simply memorize and repeat the 5 1/2 inch square which, when joined, gives the effect of two squares. In pattern 5845 you will find complete instructions for making the square shown; an illustration of it and of all stitches used; material requirements.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to Santa Ana Journal, Household Arts Dept., 117 East Fifth street, Santa Ana Calif. Be sure to write plainly your name, address and pattern number.

you'll loaf along at 50—night through town

—predicts NORMAN BEL GEDDES

"If you drive 10 blocks or more in 'the City of Tomorrow,' you'll use Express Streets allowing speeds up to 50 miles an hour," predicts Norman Bel Geddes, authority on Future Trends.

"One-way Local Streets will be made wider by the elevation of sidewalks to second-floor level... elimination of parked cars and loading trucks."

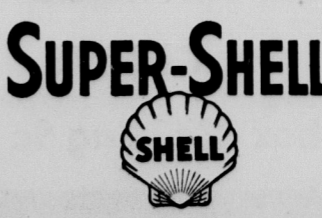

—but TODAY round town 4 miles in 5 are Stop and Go

TODAY'S stop and go is the costliest kind of driving! Just one stop can waste enough gasoline to drive 1/3 of a mile.

While traffic authorities are planning "the City of Tomorrow," Shell engineers have developed a fuel... Super-Shell, to meet today's driving problem.

Automotive engineers use the term "motor-digestible" to describe Super-Shell, because at all speeds it is converted so quickly, so completely into power.

Your regular use of Super-Shell will save on stop and go. There's a Shell dealer near you.

Two Money Masters Hold Hole Cards As Their Armies Battle Over China

A grim two-man battle hundreds of miles behind the battle lines may determine the fate of the Japanese-Chinese war.

The weapons? Money — and money.

The combatants? H. H. Kung

China's Kung

of China and Okinobu Kaya of Japan. You may never have heard of them. Here's an introduction:

H. H. KUNG—American educated, China's No. 2 man prefers this English rendering of name to the Chinese, K'ung Hsiang-shai. Runs government when Dictator

Chiang Kai-shek's away—as last winter when a disgruntled warlord kidnapped the generalissimo. Kung had a big hand in getting him returned safely.

Gets his power mainly because he's brother-in-law of Chiang. He and Chiang married two of the famous Soong sisters, thus becoming members of the "Soong dynasty," which has played an important part in building up the present government.

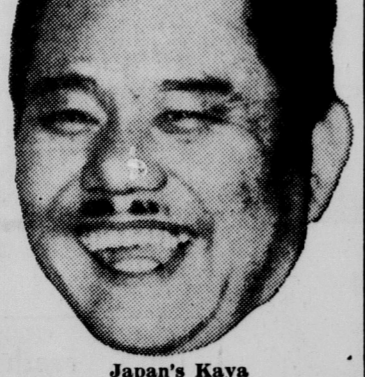

Fat and 56, he wears a mustache, has a ready smile. Born in Taikou, Shansi—one of North China's provinces Japan is now trying to annex. Has degrees from Oberlin and Yale. Been holding down government jobs since 1932. Double-barreled title now is minister of finance and vice premier. Recently wound up successful world "shopping tour" for arms and money. Arranged for at least three European loans—plus a \$50,000,000 commercial credit with the Skoda armament works in Czechoslovakia.

OKINOBU KAYA Usually smiling in pictures because thinks it a joke to be photographed. Was vice minister of finance until cabinet change in June. Got No. 1 place in finance department after another Japanese refused it.

Colorless, unknown to the world until recently, has been interested in politics ever since he majored in that subject at Tokyo Imperial university (class of '17).

Only 48, he bears one of heaviest burdens ever carried by finance minister in Japan. His country's finances are said to be strong enough for only a three months'

war. Kaya already has sweated through many long sessions with his staff discussing means of financing the campaign. So far the government has appropriated approximately \$121,500,000, and has taken steps to tighten its control over private wealth in the interests of a wartime economic structure.

SILVER SPRINGS...

If all the people in the United States were to attempt to drink the daily outflow of Silver Springs, Fla., they couldn't do it! With an average flow of 532 million gallons a day, the springs could supply every man, woman and child in the country with more than four gallons of water every 24 hours.

The nine-mile creek flowing from Silver Springs is the only stream in the world known to be navigable to its source. Good-sized freight and passenger boats can dock at the spring's head. At one point in the creek, Bridal Chamber, the water is 81 feet deep.

Tomorrow: What Is the Most Sensible—Yet Insensible Part of Your Body?

HIS NICKEL'S WORTH
Sandy seated himself at the dairy lunch counter and drew a nickel from his pocket. "Say," he asked, "what can I get for a nickel?"

"A glass of buttermilk," replied the counterwoman. Sandy looked disappointed. He picked up the coin. "I think I can do better than that," he declared.

"Go ahead," snapped the counterwoman. Sandy left. And it was just two years later to the day that he again entered the same place. He spotted the same counterwoman.

"Okay," he cried. "But put plenty of butter in it!"

LIKELY PLACE
"Why," asked the prospector, "did you come out into the middle of this dried up, barren territory to build a home? There isn't a tree within a hundred miles of you."

"What else could I do? The wife was set on learning to drive the car."—Providence Journal.

RUBBISH
"Yes, sir, these are the ruins of a building that was in existence 2500 years ago," declared the guide.

"What rubbish!" one member of the tourist party answered. "Why, it's only 1937 now."—Edinburgh Dispatch.

EDITORIAL PAGE

Sept. 3, 1937

This newspaper stands for a reunited peo-
ple, for independence in all things political,
and for honest journalism in its news and
editorial columns.

Santa Ana Journal

Published daily except Sunday by John P. Scripps Newspapers at 117 E. Fifth
Street, Santa Ana, Calif. Braden Finch, editor; E. F. Eifstrom, business manager.

Subscription rates: By mail, \$7.80 a year; by carrier, 65 cents a month; from
newsboys and news stands, 3 cents a copy. Entered as second-class matter May 1,
1895, at the postoffice of Santa Ana, California, under the act of March 3, 1879.

National advertising representatives: West-Holiday Co., Inc., New York,
31 East 40th Street; Chicago, 390 N. Michigan Ave.; San Francisco, 220 Bush
Street; Detroit, 319 Stephenson Bldg.; Los Angeles, 433 S. Spring Street;
Seattle, 608 Stewart Street; Portland, 320 S. W. Sixth Street; Vancouver, B. C.,
711 Hall Bldg.; St. Louis, 411 N. Tenth Street; Atlanta, 925 Grant Bldg. Copies
of the Journal may be secured at any of these offices, where full data regard-
ing the Santa Ana market may be had.

The Associated Press is exclusively entitled to the use for publication of all
news dispatches credited to it or not otherwise credited to it in this paper, and
also the local news published here.

We Can Keep Peace

The spirit of resignation and defeatism—and of
propaganda—is already working to keep the United States
in the center of the Japanese-Chinese conflict.

"It would be virtually impossible to uproot and repa-
triate the 4000 Americans permanently settled in Shanghai
and it goes without saying that legitimate American busi-
ness will not passively stand by and see the Chinese mar-
ket absorbed by its chief competitor"—this from the
leading editorial in The Nation, a national weekly
magazine.

Bunk. In 1917 and 1918 we uprooted and sent across
the Atlantic 2,059,626 men in the American army, not in-
cluding the navy and marines. Of these 2,000,000 men,
126,000 never came back.

Some more facts: exports of the United States to
Japan in 1935 were \$203,260,000. Exports to China the
same year were \$38,156,000, less than one-fifth the
amount.

More subtle than the easily exploded economic argu-
ments of The Nation is another line of thought expressed
by the Seattle Post-Intelligencer, a Hearst newspaper,
which made the following statement:

"Neither are we putting our tail between our legs
and pulling our protective forces out of China, while
American citizens and interests are still there and have a
right to be there."

Facts: The right of the American public to peace far
outweighs the rights of the comparatively few business
men and citizens in China. Our government stopped pro-
tecting Americans in the Spanish war zone, after giving
them due notice and accommodation to get out, and it can
do the same in China.

The Journal pledges itself to oppose those who would
entangle us in Asia. Courage will do it, the courage to
resist the idea of American participation in war, the
courage to scorn artful propaganda and deceptive argu-
ments about "rights," to justify our being involved in Asia.

And those who believe in peace and will work for
peace and will maintain peace for America should not be
too discouraged by a Hearst newspaper saying that it
would be cowardly to remove our warships from the center
of the battle lines. Too many people remember the
Maine.

Jim Farley doesn't want to make the court plan
a test of Administration loyalty. Maybe he didn't think
so much of it either.

The Law Swallows Itself

Last week a "walkshow" opened at Seal Beach. The
state has a law prohibiting endurance contests. Orange
county has an ordinance against them.

The walkshow is still running.
The sheriff ordered the affair to close up. But the
proprietors said they were not conducting an endurance
contest but merely a training period in which participants
were preparing for further games of skill.

The walkshow continued to function. Yesterday,
after Attorney General U. S. Webb had told District At-
torney Menton to "clamp down" on the show, Menton and
Jackson issued a new edict. But the show kept on running.

It was a simple matter to go into court and secure a
temporary restraining order to prevent Jackson and Men-
ton from acting. The hearing was set for Sept. 10. In the
meantime, the walkshow can proceed as usual. Maybe by
Sept. 10 it will be ready to move on anyway.

The law is a marvelous thing. It provides there shall
be no endurance contests in California. Then it turns
around and provides a handy means to circumvent itself.
Sort of like the marvelous little animals James Whitcomb
Riley wrote about that "swallowed themselves."

Is "Remember the Dollar Liner" to become a na-
tional slogan?

Swift Justice

Joseph Jacobs, in Detroit last Monday, killed the 10-
year-old daughter of his best friend, in a sudden frenzy.
On Wednesday, just two days later, Jacobs had been
tried, found guilty and was sentenced to life in the peni-
tentiary.

Such swift justice is not only a credit to the courts in
Detroit. It should be an example to others in the country.
Useless suffering of relatives both of the little girl and the
crazed killer thus was shortened. Within two days the
horrible ordeal was over. It might have been stretched
into weeks, and even months.

Joseph Jacobs was made an example in more ways
than one. Such swift justice undoubtedly threw fear into
the hearts of potential criminals, but it also showed other
judges what can be done in rushing such terrible figures
away from the public gaze.

A married man, according to the Odessa, Mo.
Democrat, is one who uses two hands to steer the car.

Why Not Try It?

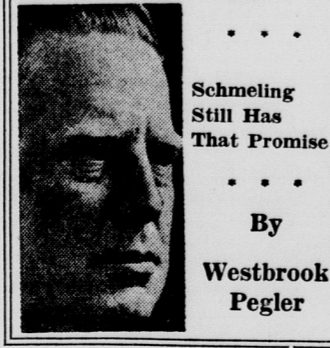

Did you ever step into a cool, quiet room and find
suddenly that the world and its worries were shut away
from you? And did you find, when you left, that you had
a new outlook on life and its continual problems?

Step into Santa Ana's Bowers Memorial museum to-
day or tomorrow. It reopened yesterday for the fall and
winter under the direction of Mrs. F. E. Coulter, curator.

It houses symbols of past strife, past romance, past
struggles. Through the perspective of the years the ro-
mance seems more colorful. The strife and struggle seem
less overpowering, in retrospect.

Perhaps a visit to the museum would take the edge
off your worries.

FAR Enough

For the third time this year
Max Schmeling is the victim of
the run-around in his quest for
the heavyweight championship,
which has so truly been called
the fairest bauble in fistiana's
crown. Having knocked out Joe
Louis, he was promised a fight
with Jimmy Braddock, but was
postponed so that Braddock him-
self could fight the negro boy.
Braddock thought that if Schmeling
could knock out Louis he could,
too. He was in error there, how-
ever, and Louis became cham-
pion.

At this point Schmeling was al-
most champion, for he was obvi-
ously the new champion's master.
For this reason he was again post-
poned while Louis fought Tommy
Farr of Wales.

There was a sort of popular
understanding that Schmeling
would surely get a bout with the
winner for the fairest bauble some-
time this fall, but popular under-
standings are not legal and bind-
ing, and everyone with any knowl-
edge of pugilistic diplomacy knew
that the winner of the Louis-Farr
fight, whoever it might be, would
break a hand and be unable to
recover from this injury and train
adequately to meet Schmeling this
year.

RICKARD SYSTEM

Sure enough, Louis broke a
hand, and, moreover, Mr. Mike
Jacobs, the promoter, decided that
the situation had now become suf-
ficiently confused to warrant the
holding of a heavyweight elimi-
nation tournament, which is an
invention of the late Tex Rickard.
In Mr. Rickard's last year's
weight elimination tournament
a dozen lithe, lean bodies elimi-
nated one another back and forth
for almost a year, and at the end
it was decided that Tom Heene-
y, who had been eliminated most,
was the rightful holder of logical
championship, and the obvious
opponent for Gene Tunney.

While the current heavyweights
are eliminating one another next
winter, Louis will retire to await
the decision of fate, and thus
Schmeling is postponed for the
third time. There is also a slight
possibility that he will be elimi-
nated during the winter, whether
he enters the tournament or not.
If he should enter it and win, that
would automatically disqualify him
for the championship fight next
spring, according to the tradition
which confers the title of champi-
onship on the gladiator who is
eliminated most. If he should
stand aloof from the tournament,
he would be postponed again
while Louis met the logical con-
tender in response to great popu-
lar demand.

NOT VERY NICE

From the standpoint of sport,
if sport were in any way involved
in the prize fight industry, this
would represent injustice to
Herr Schmeling, who doubtless
can beat Louis any time before
old age sets in and doubtless could
have beaten Braddock, too.

For clarity it is best to regard
pugilism as a miniature inter-
national diplomacy and apply to
the profession all the duplicity,
hypocrisy, the vicious cynicism,
dishonesty and treachery that na-
tions, and particularly the dictators-
ships, employ in their dealings with
one another.

It is not strictly analogous, but
the case of Mussolini and Abyssinia
has points of similarity. For
reasons of their own, the Italians
brought Abyssinia into the league
of nations, agreed not to resort to
war, and further agreed to impose
boycott measures on any nation
that did.

Mr. Jacobs, the promoter, wel-
comed Schmeling to competition in
the belief that Louis would lick
him, a belief which Adolf Hitler
shared. But when Schmeling un-
expectedly beat Louis and Hitler
suddenly discovered that the
swarthy brunet with the narrow
black eyes and high cheek bones
was a true, blond Aryan it was
deemed inadvisable to permit him
to become champion lest he become
unbearably independent and dicta-
torial, as the reich did when the
conquering nations carelessly per-
mitted Hitler to re-arm.

BULLED THE WORLD

In Mussolini's case the league
of nations was so old and the popular
sentiments of the hour had been
so far forgotten that he could ig-
nore his promises, just as the
promises to Schmeling and his
plain rights in the case have been
ignored. Mussolini then attacked
a fellow member of the league at a
distance of 3000 miles in defense
of the gates of Rome, conquered the
country, and, by sheer gall, bullied
the world into acceptance of the
act. The world didn't approve, but
decided that it was another of
those things, and just let it go.

Similarly, the public has re-
garded Schmeling's case as an-
other of those things, not forget-
ting, however, that he behaved the
same way toward Jack Sharkey
when he was champion.

EVERYDAY MOVIES

"With three girls to every fellow in camp, trying to look your best doesn't allow a minute to relax"

FLOWERS

VIRGIL REED, who has proved
that industry and sincerity do get
their reward. Reed, who started
his climb 11 years ago by sweep-
ing floors in the Santa Ana book-
store, did his work in such a way
as to attract attention of a na-
tionally-known business organiza-
tion, and has just been given a job
covering Southern California, Ariz-
ona and New Mexico for this or-
ganization.

Twenty-Five Years Ago

SEPT. 3, 1912
LONDON.—A complete disavow-
al of the so-called British view of
the Panama canal act. The official
Foreign Office says that if arbitra-
tion should fail in a case so pecu-
liarly adapted to it and between
such friendly nations as the United
States and Great Britain it may be
doubted whether the time is ripe
for the arbitration idea.

VIENNA.—The newspapers here
are supporting the British view of
the Panama canal act. The official
Foreign Office says that if arbitra-
tion should fail in a case so pecu-
liarly adapted to it and between
such friendly nations as the United
States and Great Britain it may be
doubted whether the time is ripe
for the arbitration idea.

CANANEA.—One hundred and
twenty-five rebels cut all the wires
and burned bridges between here
and Naco today. Volunteers were
sent after them. Americans are
reported in danger today. General
Schuyler has reported the border
conditions as desperate.

The hand of Providence pro-
tected Willard Chase, Lee Paul and
Ben Warner and saved them from
serious, if not fatal injuries last
night when an automobile they
were riding, struck and killed a
mule on South Main street, just
below the sugar factory.

IT'S ODD

But It's Science
By HOWARD W. BLAKESLEE
AP Science Editor

By HOWARD W. BLAKESLEE
AP Science Editor
NEW YORK.—Dust from fresh-
ly broken rock is alive with dan-
gerous poisons. They die after a
certain amount of contact with
the air.

This discovery, made at the Im-
perial College of Science and Tech-
nology in London, explains some

of the mystery of the lung dust
disease, silicosis. Dusts from sil-
icosis-producing rocks are some-
times found to be "dead"—that is,
not likely to cause lung trouble.
The reason, the English sci-
entists say, is loss of alkali and sol-
uble silica, which the particles carry
when freshly broken. The small-
ness of the particle has some-
thing to do with the poison effect.
Only very fine particles give off
the dangerous chemicals.

The Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON.—The next
move in the New Deal war on the
federal judiciary may be a de-
mand for a purge of the lower
courts.

The strategy under considera-
tion in the inner circle would be a
two-edged attack. One man-
euver would be the creation in con-
gress of a special investigating
committee to scrutinize the re-
cords and activities of district and
circuit judges.

The second would be to have the
justice department go before the
supreme court when it reconvenes
in October, and petition that cer-
tain lower court judges be "dis-
charged" on the ground of prej-
udice from sitting in cases which
involve government interest.

The department took this action
against a Michigan judge two
years ago. He countered its peti-
tion of prejudice by refusing to
step aside and appealing to the
federal circuit court in Cincinnati,
Ohio. This court ruled against
him. He then appealed against
the supreme court, which unani-
mously upheld the circuit court's
decision and ordered the judge to
relinquish the case.

It is a closely guarded secret of
the justice department that it is
ready to take similar measures
against two other Michigan judges
as soon as it is given the go-ahead
signal. The department has a
large portfolio of evidence on both,
consisting of affidavits and letters
of complaint. One of the judges
is a Republican appointee who has
been on the bench many years.
The other was named by President
Roosevelt.

One of the affidavits against
the Republican judge is from a
waitress who charges that he
overheard him remark, "Wait until
those New Deal chaps come
before my court—I'll show them."
Another says that he accompanied
Governor Landon when the G.O.P.
presidential candidate campaigned
in Michigan last year.

The most serious complaint
against the Democratic judge is a
vigorous letter of protest against
certain of his judicial activities
written by Senator Prentiss
Brown, Democrat from Michigan.

CONGRESSIONAL MAIL

Here is a special mail from a Con-
gressman's mail bag.
From Long Beach, Calif., one
W. M. Wallace wrote to Maury
Maverick, saying, "Why don't you
congressmen and senators set a
good example and turn down
three-fourths of that railroad fare
you draw, free hair cuts, shaves,
stationery, and a lot of other
things?"

"To tell you the truth, I never
saw a congressman that was
worth it, anyway."
"P. S. I would like an answer
to this, as it doesn't cost you any-
thing for paper or stamps."

ARGENTINE SANITARY CONVENTION

Henry Wallace seems to have
more trouble keeping his agricul-
tural employees in line than in
most any department of the gov-
ernment—except the army and
navy, which are always kicking
over the traces privately against
their commander-in-chief.

Nearly two years ago, Henry's
experts in the bureau of animal
industry were called in to see if
they objected to a treaty with
Argentina whereby meat was ad-
mitted from Patagonia, a part of
the country with a very rigorous
climate extending toward the
South Pole, where hoof and mouth
disease does not exist.

The experts gave their consent,
provided they retained the right
to judge regarding the existence of

the disease. A treaty along this
line was negotiated.

But ever since then, Henry's ex-
perts have been talking privately
to U. S. cattlemen and dropping
quiet hints that the treaty should
be broken. As a result, and al-
though the pact was emphasized
by Roosevelt during his good
neighbor trip to Buenos Aires, the
treaty will never pass the senate.

NEW COFFEE RECIPE

Latin American coffee countries
are out to increase consumption of
the beverage in the United States.
They have just made up a kitty of
\$500,000 for a big sales campaign.
The drive was decided on fol-
lowing a nationwide survey. Some
sections of the country, it was dis-
covered, consume 16 pounds of
coffee per capita annually, while
others consume only 8 pounds. The
average is 12 pounds. The coffee
growers want to boost this to 14
pounds.

One of their plans to do this is
to try to convince iced coffee
drinkers to make their beverage
stronger. When hot coffee is
poured over ice cubes, melting re-
sults in heavy dilution and a weak
drink. The recipe that will be
publicized as a substitute calls for
making iced coffee of frozen cubes
of coffee instead of frozen cubes
of water.

MERRY-GO-ROUND

Foreign countries are not the
only ones who maintain embassies
in Washington. Last winter Louisi-
ana established an "embassy" in
the capital, headed by the secre-
tary of the late Huey Long. Re-
cently Alabama followed suit with
Alva Rusk, personal representa-
tive of Governor Bibb Graves, in
charge. . . . When the Duke Power
company's test of the constitution-
ality of PWA power loans is heard
by the supreme court this fall, it
will be the eighth time the issue
will have been argued in the fed-
eral courts. Last year, with Jus-
tice Harlan Stone absent because
of illness, the supreme court
ducked the case by sending it back
for retrial on a technicality. . . .
Lawrence (Chip) Rickett, able and
popular secretary of the Demo-
cratic National committee, has
just completed the organization of
the Southeastern Governors' coun-
cil, modeled after a similar body of
New England governors. One of
the major objectives of the south-
ern group is to seek the abolition
of freight differentials operating
against their states.

Journalaffs

"There's nothing like persever-
ance," declares a Fullerton lec-
turer. "It wins in the long run."
Not always. Did he ever see a
hen on a china egg?

CANDIDATE FOR THE POISON IVY CLUB

The father who laughs at his
small son because the summer va-
cation is almost over.

A good way of getting all the
pleasures of visiting relatives is to
take a taxicab to the depot, wait
45 minutes, take a taxi home, rub
some cinders in your hair and then
sleep on the davenport.

SPORT NEWS FROM MUD HOLLOW

The boxing bout held here last
night was a failure. Clem Alfalfa,
local heavyweight, was supposed
to quit in the third round, but he
was so sunburned that he couldn't
lie down.

One Man's Opinion

COUSIN SEA
When physicists experiment at
creating, increasing or even main-
taining living organisms they find
use for warm, slightly salty wa-
ter. Certain tender organisms
seem to thrive in such a fluid
when other environments blight
them.

Appended to the general theory
of evolution is the further spec-
ific theory that living things were
driven out of the waters of the
earth and on to the land by the
ever-increasing saltiness of the
water.

Those creatures which adopted
themselves to the increasing salti-
ness of the oceans, certain fishes,
crustaceans and even birds, ap-
parently do just as well in their
salty surroundings as the lineal
descendants of those creatures
which "couldn't take it" and which
migrated to localities where the
rains came down, fresh and sweet,
from the heavens.

The human animal has always
been called the most adaptable of
all animals. He can live and ac-
tually does live and apparently
thrive in more various unfavor-
able environments than any other
member of the animal kingdom.

And yet man, left to depend
on the salt water his primordial
ancestors left is totally helpless
and must perish.

"Water, water everywhere, and
not a drop to drink," is one of
the most tragic phrases in the hu-
man language.

Harrowing tales of shipwreck
and of thirst on a burning sea
the most awful in human experi-
ence. The most horrible, of course,
will never be told, for there were
no survivors.

The beauties of the action, the
colors and the manifold life in
the ocean sometimes make me
wonder if the human animal could
still, if necessary, adopt himself
to increasing saltiness of water
until ocean water was a satisfy-
ing drink.

An unconscious gulp of ocean
water while swimming seems to
give an emphatically negative an-
swer to such a suggestion. Even
a sip of ocean water when thirsty
shrieks "No!"

But still I'm curious. I hope
someone will experiment some
time and let me know the result.
I can't because I do not like salt
water.

What Other Editors Say

(San Diego Sun)

It is hard to understand the rea-
soning by which San Quentin au-
thorities have shut condemned men
away in what has become in the
prison as "Siberia," a tier of dark
cells in one of the great cell-blocks
from which never a glimpse of
God's outdoors and blue sky is
vouchsafed to them.

Records do not disclose that con-
demned men have been exception-
ally addicted to efforts to escape,
which is the principal reason ad-
vanced for moving them from their
old sunny cell tier adjacent to the
Garden Beautiful. They are no
more dangerous than many other
prisoners confined for lesser
crimes.

We are inclined to believe the
policy of the present prison man-
agement is more nearly indicated
by the remark of an official whose
reply to the expression of horror
voiced by a reporter was, "The law
decreed they should be hanged by
the neck until dead!"

Is that any reason, in the name
of humanity, why they should be
tormented for the few remaining
days of their lives?

YOU OWE \$284.62

(San Francisco News)

Every man, woman and child—
rich or poor, sick or well, on re-
lief of off—every bootblack and
yacht owner, every ditchdigger
and gold digger, every clerk and
every storekeeper, every farmer
and every factory worker would
be called upon to ante up \$284.62
to the federal government if the
gross national debt were to be re-
tired today.

For the gross national debt has
attained the enormous total of
\$37,021,303,409.05 by the approxi-
mately 130,000,000 population of
this country does more than reduce
the number of digits from 13 to
five.

For we all know what
\$284.62 means to each of us. To
most of us it means a lot more
than we have to spare.

That extra nickel makes the sum
look familiar, but adds nothing to
the comprehension of such an as-
tronomical figure. Dividing that
\$37,021,303,409.05 by the approxi-
mately 130,000,000 population of
this country does more than reduce
the number of digits from 13 to
five.

Apparently it's going to take a
search warrant or a habeas corpus
to get a glimpse of it.—Anthony
Dimond, Alaskan delegate, who
asked congress to authorize the
Alaska purchase check's transfer
to Juneau for exhibition.

And then there was the drunk
who paused an hour in front of
a bottle of red water in a phar-
macy window, waiting for the
light to change.

WHIMSIES

NEW YORK.—Thoughts while
strolling: No one tops George
White in giving a straw hat that
certain tilt. Triumph of a voice
affection: Katharine Hepburn.
Most galloping of the pianist:
Johnny Green. Everybody is tired
of radio comedians et al plugging
themselves.

Add beautiful children: The
Irving Berlin daughters. The
town's most furious cigar chain
smoker: Mike Jacobs, new boss
at the Garden. Where the suckers
never get an even break. Those
gyp auction jewelry rooms. And
where, Oh, where are the police?

Look alike: Billy B. Van and
Jimmy Gleason. Jerome Kern's
tunes always have pure melody
instead of the usual oom-pah-pah.
Nobody can twitter like Alice
Brady. Wendy Barrie is making
Beatrice Lillie look to her comic
laurels. What's become of Helen
Morgan?

With feathered head-dress Lee
Shubert would make a fine look-
ing Indian. Herbert Swope seems
to arrive everywhere in the last
spurt of a foot-race. All the dance
halls are featuring the Big Apple
contests. That's the new step out
of the South.

The lightest fellow on his feet
for his size: Albert Keller of the
Ritz. What a handsome villain
William Rhineland Steward
would have made in the old ten,
twent and thert. Wonder what
the Duke of Windsor thinks about
about things by now?

Many society lasses became ca-
reerists singing at the night club.
Still others picked up big money
occupying seats at the ringside
in newly opened cafes and supper
places as sort of decoys. But the
newest wrinkle is the liquor sales-
girl who acts much in the same
fashion of the wine agent in the
Marry Chipping days. She is
paid a commission and given a
generous expense account to or-
ganize parties and see that only
certain brands are served. One
brand of Scotch whiskey became
a best seller as the result of a
Jozen or so society girls booming
it in this manner. Still another
French aperitif, little known out-
side of Paris, is being popularized
the same way. Ladies must live.

Latest for poor little rich chil-
dren: The portrait doll, a pic-
ture of the fortunate child, even
the doll maker and the doll is
modeled in replica. In many cases
original hair of the owner is used.
Complete, \$85 and upward. There
is one reputedly made for a grown
up Hollywood star that cost \$500.

The generosity of dotting rich
parents is rather bewildering to
one who considered grandma's
reach into her side pocket pea de
soie for her snap purse to bestow
a nickel—instead of the usual
penny—top munificence. There is
the boy, 17, for instance, sent to
Europe last summer alone for a
week's visit. All his preliminary
expenses, ship passage, etc., were
paid for and on the day of his
sailing he was given \$5000 worth
of traveler's checks.

Then those sprigs who imme-
diately after graduation from col-
lege, are established in toasty
bachelor apartments and dine with
the family once a week. They
have their motor car, combina-
tion butler and valet and charge
accounts everywhere. They don't,
of course, show much interest in
careers, but the great majority
turn out quite decently. Indeed,
there are two conspicuous cases
of young men given such advan-
tages who tired of it after a
few years, plunged into the in-
dustrial world and are now estab-
lished figures. Yet to my notion
parents take an awful chance.

One of those Noisy Nuisances
